Protest Change in Hway Syst

PETITION PROTESTING CHANGE IN COUNTY HIGHWAY SYSTEM.

To the Board of County Commissioners of Codington County, South Dakota, and to all to whom it may concern:

We, the undersigned, freeholders of Codington County, South Dakota, do hereby protest and object to the change in the Codington County Highway System now being considered by your Board, as follows:

"To add the three miles beginning at the Southeast corner of Section 30 and the Southwest Corner of Section 29-118-51, thence one mile south running between Sections 31 and 32-118-51, thence west two miles running between Sections 31-118-51 and Section 6-117-51 and Section 36-118-52 and Section 1-117-52, thus connecting with the present County Highway at the Northwest corner of Section 1-117-52,

And that the following described highway be eliminated from the County Highway system, to-wit:

Beginning at the Southwest corner of Section 29-118-51 thence west two miles to the Northwest corner of Section 36-118-52, thence south one mile to the Northwest cornerof Section 1-117-52"

And in connection with which notice of change was given, and hearing set for Friday, February 7th, 1930, at ten o'clock A. M., at which time any person interested may show cause why said County Highway System should not be changed, and the undersigned do hereby protest and object to the change of said County Highway System, and to that end show and submit the following:

I.

That the County Highway asked to be changed has been, and for some time has some time has stood, as an established County Highway upon petition duly filed and acted upon, and is now a part of the County Highway system.

II.

That the Highway asked to be abandoned and eliminated from the County Highway system is a mail route, used and traveled by a carrier of the United States Mail, and by Public School Busses in the transportation of school children, and must be maintained as a mail route.

Protest in Change Hiway Supt.

III.

That the Highway asked to be abandoned and eliminated is along high and open ground, and along its route is found no obstructions which cause snow to pile up or drift in said Highway of which causes the same to be blocked for traffic, and which is not the case with the route of highway proposed, and which said proposed highway contains along its route obstructions which cause same to become blocked and impassable, and is impassable at this time.

IV.

That the proposed highway passes through territory which is routh, hilly and broken, and which will require a great amount of expense to grade, hills to be cut down, and grades to be built in low places, and will require the construction of at least eight new bridges or culverts, which together with the expense and loss of tearing out of present bridges and culverts will all tend to cause an unnecessary expense.

V.

That the Highway as now established passes through more level terretory and a better and more direct route of travel as will that in the proposed change, and that the proposed change will serve no more people than the present established highway.

Wherefore the undersigned pray that the petition for change herein referred to be denied, and that the present established Highway be maintained, and completed.

The above petition was signed by Henry Klein, John Kirsch, P. M. Bauer and others.

Motion received no second.

Motion pay $25.00 Hiway office help. — Moved by Wohlheter, seconded by Lockhart that Highway Superintendent be allowed $25.00 per month for office help. Roll call, Lockhart aye, Tvinde aye, Wohlheter aye, Spartz no. Spartz stated as his reason for voting no was that this was a cover up of additional allowance of $20.00 per month for which Don Slawson was to bill the State for work on State roads, which has not been approved by a majority of the Highway Commission. Walsh no. Walsh stated as his reason for voting no was that this was no time for raising wages and that Highway Superintendent has not come before the Board asking for office help.

Commissioner Wohlheter raised the point of order to Commissioner Spartz reasons for his objection to his (Wohlheter) motion. Allowing the County Highway Superintendent $25.00 per month for office help be stricken from this minutes. That it was not a cover up, that this motion speaks for itself. Chairman Walsh ruled that prior to this adoption of this motion the admissions made to the Board by Commissioner Tvinde and Highway Superintendent Slawson laid the foundation for Commissioner Spartz objections thereby the point of order raised by Commissioner Wohlheter is over ruled.

Hiway Office Help allowed — Commissioner then declared original motion allowing Highway Superintendent $25.00 per month for office help carried.

Lot H-1 of the SW¼ of the NE¼ of section 25;
Lot H-1 of Gov. lot 3 in Section 25:
Lot H-1 of the West ½ of the South-eadt ¼ of the section 25;
Lot H-1 of Gov.Lot 1 of section 25; and
Lot H-1 of the NE¼ of the NE¼ of section 36;

Tracy Land

And it having been agreed between said Tracy and said county as a part of the consideration for said conveyance, that a "cattle pass" would be constructed under the said highway suitable to the needs of said Tracy in the operation of his farm through which the highway passes, and there being a question whether the cattle pass as now constructed in said highway will be suitable to and answer the requirements for permitting the passage of animals through and under said highway during rainy and wet seasons because of water and mud accumulating at the approaches to said cattle pass;

BE IT THEREFORE RESOLVED by the said county of Codington in consideration of said conveyance and agreement that said Codington County does hereby agree with said Leon G. Tracy, his grantees and heirs that sould it become apparent that the construction and grading of the surface of the land leading to and into said cattle pass as now made is not practical for the purposes intended and that the animals by reason of the accumulation of water and mud at the ends will not freely pass through said cattle pass and be in proper condition after such passage for the purposes for which they are maintained, said county will fix or have fixed the said approaches by proper grading and filling so that the animals will have proper footing reasonably free from mud and water.

On January 10, 1934 Attorney Walter Stover, Doctors W. G. Magee, H. T. Kenney, George H. Richards, and Mr. George O. Fossel, representing the Luther Hospital and its staff, and Dr. H. Russell Brown of the Bartron Hospital appeared before your Board. At this meeting Attorney Stover proposed a new arrangement for the hospital and professional care of county patients whereby the hospitalization of the same would be divided equally between the Luther Hospital and the Bartron Hospital and whereby each doctor residing in Codington County would be compensated for his services. A written proposal covering the details of the same together with a fee schedule covering the rate to be paid the hospitals and the fees to be paid the doctors was submitted by him and a copy of the same was given to each member of the Board.

In that the proposed new fee schedule, after being analyzed carefully by you and compared with your old contract, has not met with your satisfaction and approval because of more than doubling your present cost in caring for County patients, and in that your subsequent offer to the Luther Hospital was rejected by them, wherein, based upon an assertion by them in the past that they could make such a saving, you offered the contract to the Luther Hospital at a yearly compensation averging $5000 a year less than you have been paying the Bartron Hospital, and in response to the offer of the undersigned to submit a fee schedule, together with a program devised to provide equalization of the medical care and hospitalization of the county poor of Codington County, I submit the following.

It has at all times been our honest endeavor to provide for the hospitalization and care of the county poor at a very low rate and it is our firm belief that we have in reality been rendering an unquestionable charitable service in Codington County for many years past. It is the sincere hope of

The undersigned that a means can be worked out whereby the Luther Hospital and the Bartron Hospital will be able to share equally in the hospitalization of the county poor. It is a matter of record that the Luther Hospital does not pay any taxes and it is a matter of record that the Bartron Hospital has always paid taxes and at the present time is paying taxes not only on its real estate, but upon its gross receipts as well. In arriving at an equal division of the work between the two hospitals, it therefore in the very beginning appears but fair that the two institutions should start with an equal overhead as far as taxes are concerned, and it is with this provision and assurance that we submit the following.

Arrangement using basis of old contract, except

1. Hospital rate $2.00 per day instead of $1.65.

2. Medicine same as old contract, or if preferred, to be equally divided between all drug stores in Codington County, but with the provision that all medicine required for county patients confined in the hospital be furnished by the druggist to the hospital free of charge in that under the old contract medicine for all hospital cases has been furnished without charge to the county.

3. Rural medical care and mileage. In that there are but two practising physicians in the county who are not located in the city of Watertown, it is suggested that negotiations be entered into whereby a reasonable basis of compensation may be reached for services rendered to county patients and whereby a mileage compensation based on transportation cost be allowed on all professional calls outside of the village or city limits only.

In order to work out the equitable distribution it would be our suggestion that beginning at the date of the acceptance

of a contract, our hospital handle all hospitalization and care of the county poor for a period of six months and that for the last six months of the year the Luther Hospital provide for the hospitalization of all the county poor, and at the conclusion of six months, should there by any patients confined in the Bartron Hospital which because of their delicate condition it would make the same improper to move, that they be left there until their condition improves.

That the medical staff of the two hospitals be entitled to accept any money which may be provided directly or indirectly by the Federal Government for the medical care or otherwise of the persons in Codington County who are on direct reliefor any other persons whom the Federal Government may during the term of this contract provide medical care and or hospitalization for.

If the above and foregoing rates and other conditions appeal to the Board, we ask that the hospitalization and professional care of county cases in Codington County be so agreed upon promptly, and in the event that the Luther Hospital declines to accept, that the same be given to the Bartron Hospital. We would further ask that the States Attorney draw a contract setting forth the details and that the parties hereto sign the same and that the contract be awarded upon this written agreement presented by the States Attorney.

Respectfully submitted,

H. J. Bartron, M. D.

He stated in view of the fact that all proposals submitted providing for the division of the work had been rejected by the board, that he was making a request at this time for renewal of his old contract which would expire in two or three days. He further stated that after an earnest attempt for a period of one month all proposals toward dividing the work equally between the two hospitals had been found unsatisfactory because of it costing the taxpayer considerably more than under the old contract. He declared that his request for renewal concerned only the County Board and himself as the existing contract had no connection whatsoever with the Luther Hospital. He claimed that the Luther Hospital had failed to meet the conditions of his proposal to divide the work equally and that they had absolutely refused to pay taxes in any manner whatsoever which was an absolute requirement in his proposal and one upon which the proposal was based. Because of these reasons he felt he was entirely in order in making his request at this time for renewal of the old contract and that the board should take immediate action upon the same.

PROPOSAL CONCERNING HOSPITALIZATION AND

MEDICAL TREATMENT FOR CODINGTON COUNTY POOR

TO THE HONORABLE THE BOARD OF COUNTY COMMISSIONERS OF CODINGTON COUNTY, SOUTH DAKOTA:

The undersigned including both of Codington County's hospitals and every practicing physician resident in said County herewith present to you a proposal for the medical and surgical care, and for the hospitalization of the needy citizens of Codington County.

While this proposal, because it includes a complete set up of the method of handling the matter including compensation of those involved in caring for the sick, is somewhat lengthy, we have attempted to present a simple and practical plan for your consideration.

We sincerely believe that the plan proposed will result in the proper care of those patients concerned and further result in a saving to the taxpayers of the county.

If the plan proposed meets with your approval, we can then enter into contracts with the county to carry it into effect. We suggest that these contracts be cancellable at any time at the will of your Honorable Body so that you may at all times have complete control both of the question of medical care and hospitalization of those concerned, as well as the expenditure of the County's funds in relation thereto.

The plan contemplates an equal division of the work between the Bartron Hospital of Watertown, and its staff, and the Luther Hospital of Watertown and its staff.

We propose that each hospital and its staff alternate in handling this work
X in quarterly periods of three months each
X in monthly periods.
except that any patient presently hospitalized at the end of any such period shall continue at the hospital wherein he is hospitalized, and that that hospital and its staff be compensated for his care until he is discharged.

In order to avoid any question concerning the necessity of hospitalization in any given case, we propose that a committee be created consisting of a designated member of the medical staff of each hospital, who together with the attending physician on the case shall, except in emergency medical and surgical cases, decide upon the necessity of such hospitalization. The committee shall serve without compensation.

To simplify securing a doctor for each case requiring attention, we propose that the County Commissioner concerned call the hospital handling the work for the period, and that the hospital assume the responsibility of securing immediate medical attendance upon the case, from its staff, giving due regard so far as may be possible by contact with the patient to his own choice of physicians from the hospital staff.

We propose that regardless of what doctor may be in actual attendance upon the case that the bills for medical and hospital service be consolidated, and checked by the Chief of Staff of the hospital and staff

In order to centralize responsibility, we propose that the Chief of Staff of each hospital be consulted by the County Commissioners on any question concerning care of any patient or of bills rendered by the hospital and staff.

We propose the following compensation for the hospitals and doctors concerned.

HOSPITAL COMPENSATION.

$2.00 per day per patient (including room and bed, general nursing, food and general hospital care)
Dressings at wholesale cost to the hospitals.

Operating Room.
$2.50 for each operation for all minor surgery such as tonsils, lacerations, amputation of fingers, toes, etc.
$5.00 for each operation for major surgery.

Laboratory work at one-half prevailing price.
X-ray work at one-half prevailing price
(This should be set out in dollars and cents)

PHYSICIANS' COMPENSATION?

In general in one-half of the prevailing prices recognized by the South Dakota Medical Association; being the schedule of fees fixed by the State Relief Director, the Honorable W. L. Eales, a copy of which is hereto attached; with the following exceptions in which cases the fees are below the attached schedule, or are not included therein.

Calls in the city of Watertown $1.50 each.
Calls at hospitals $1.00 per day.
Calls at offices $1.00 each
Calls in County $1.50 plus $0.25 per mile traveled.
Confinements $20.00 for normal cases plus $5.00 for abnormal cases; and for county confinements an additional mileage of $0.25 per mile, traveled.

Urine analysis $0.25
White Blood county analysis $1.00

No charge for assistants at operations or confinements.

Contagious cases:

Special Nurses:

For any services not included in the foregoing arrangement compensation to be agreed upon between the Committee hereby set up concerning necessity of hospitalization, and the Board of County Commissioners, the decision of the Board of County Commissioners to be final in any event.

The foregoing does not include any proposal concerning drugs and medicine and we suggest that an arrangement

EXCERPT FROM BULLETIN STATE EMERGENCY RELIEF ADMINISTRATION OF DECEMBER 2ND, 1933.

(a) For office calls $1.00

(b) For all house calls made within the village or city limits, the rates shall not exceed $1.50 per call.

(c) For all calls made outside the village or city limits, the rates shall be $1.50 for each call plus mileage at the rate of 20 cents per mile from and to the village or city limits.

(d) To eliminate unnecessary mileage, calls must be grouped by days and trips. This applied to all calls other than emergency calls.

(e) All medicine and medical supplies prescribed by the attending physician shall be billed by the druggist at prices which make due allowance for the conservation of relief funds. In localities where druggists are not available the physician shall furnish such medical supplies on the above basis.

(f) Obstetrics:

1. Normal delivery $20.00
2. Instruments, repairs or extra time exceeding 12 hours $5.00. This $5.00 additional for any one or all of the three, but not for more than one.

(g) Specialists:

In all emergencies requiring the assistance of a specialist, such as eye, ear, nose, throat, surgeon, dentists, or nurse, same will be called only on the recommendation of the physician in attendance who has seen the patient in his home or at the physician's office.

(h) For such services the fee shall be one-half of the itemized fee bill promulgated by the State Medical Association. Funds made available by these instructions cannot be used to pay bills contracted prior to December 1, 1933.

That for some years past this land has been owned by John Peck and the adjoining land by the estate of William Arnold, deceased, and that affiant's land should have been assessed separately.

That all of said land, so assessed, is agricultural land without improvements on it and of the same character.

That affiant should pay on his property only one-third of the total tax assessed against the Southeast of the Northwest Quarter, and the South Half of the Northeast Quarter of said Section 35, and one-half of the tax assessed against the Northeast Quarter of the Northwest Quarter, and the Northwest Quarter of the Northeast Quarter of said Section 35, in Township 116, Ragge 54;
