RESOLUTION

WHEREAS, the Federal Relief Administration has made a ruling that any person not receiving relief from May 1 to November 1, 1935, is not eligible for WPA work.

NOW, THEREFORE BE IT RESOLVED, by the Board of County Commissioners of Codington County, South Dakota, that we do not feel that this ruling is fair and penalizes men who immediately, last March or April, when spring work opened up on farms and elsewhere, obtained private jobs and went off the relief rolls, making their own living and providing for thier families until a fter farm work was completed, between November 15 and 25, and now are not eligible for WPA work to provide for their families during the winter months while the relief client who hung on the relief rolls all summer again is receiving benefits and that this creates an unsatisfactory feeling in those who are actually trying to be on the square and not trying to live off public funds.

Res. F.P.A.

BE IT FURTHER RESOLVED, that this ruling be waived and that the determination of eligibility for work relief be left to the County Board and the Certifying Officer in each County.

R E S O L U T I O N

WHEREAS, certain property known as the North Star Oil Company of Watertown, Codington County, South Dakota, situated on Lots 8,9,10,11 and 12, Block H, Burchard's Addition, lying west of highway 81, in Codington County, South Dakota, was duly sold at public auction on the 3rd day of September, A.D., 1935, said sale having been conducted and in charge of Ed. T. Elkins, Sheriff of Codington County, and from which sale the sum of $564.50 was realized therefrom, and said amount representing delinquent taxes due and owing to Codington County;

AND WHEREAS, on the 2nd day of November, A.D., 1935, the said Sheriff, pursuant to the laws of the State of South Dakota turned over by check such amount so collected by him to Ben Higgins, the duly elected, qualified and acting treasurer of said Codington County, and was thereby credited in such amount for the sale of said above described property;

AND WHEREAS, subsequent to said sale of the said property by the said Sheriff, and on the 16th day of September, 1935, one W. J. Siebert was appointed by the Board of County Commissioners of said County, as Special Tax Collector for the purpose of collecting delinquent taxes under special privilege of statute, and for all such collections so made by the said special tax collector, a commission of 10% of all monies actually collected in the country and 8% on all monies actually collected in the City of Watertown, was allowed by contract with said County as his fees or compensation for such collection;

AND WHEREAS, after the date of said sale of said described property herein and collection of monies therefrom by the said Sheriff and after the said Sheriff had remitted such monies so collected to the said treasurer's office, the said Ben Higgins, as treasurer of Codington County, presuming to know that the said W. J. Siebert had no right or interest in the monies so collected by the Sheriff on said sale, did voluntarily and wilfully transfer said check of the said Sheriff over to and in favor of the said W. J. Siebert, and did so for the sole purpose that the said special Tax Collector might realize a commission on the said sale, and in turn the said W. J. Siebert voluntarily accepted such check for the purpose of realizing a commission therefrom:

AND WHEREAS, on the 15th day of November, A.D., 1935, the said Ben Higgins, as County Treasurer, did approve of a bill filed with the County Auditor in the amount of $189.63 and which bill among other items, included a commission on the sale of the above described property herein in favor of the said Special Tax Collector in the amount of $45.16;

AND WHEREAS, on the 16th day of November, A.D., 1935, the said bill of the said W. J. Siebert, for the purported commission on the said sale of the said property by the said Sheriff, came to the attention of the Board of County Commissioners of Codington County, who thereupon refused to allow and approve said bill in the above named amount for the reason that $45.16 of which was fully unwarranted and wrong, and that both the County Treasurer and the Special Tax Collector knew, or should have known that the Special Tax Collector was not entitled to the same, and that the bill in the particular was entirely without basis or justification. That said bill was then allowed in the true amount of $144.47;

NOW THEREFORE, in view of the unwarranted actions of the Special Tax Collector in the above matter, under all the circumstances hereinabove set out,

IT IS HEREBY RESOLVED, that W. J. Siebert, be hereby dismissed from the duties of Special Tax Collector of Codington County, South Dakota, and the office be declared vacant.

R. H. Stein moved that the following resolution be passed. Seconded by Monahan. Roll call, Monahan, Aye, Paterson, No, Stein, Aye, Haan, No, Wohlheter, Aye. Motion declared carried.

RESOLUTION

WHEREAS a Resolution was introduced by Commissioner Paterson and seconded by Commissioner Haan, setting forth the purported facts in Connection with W. J. Sibert, Tax Collector, and Ben H. Higgins, County Treasurer, and

WHEREAS it appears that the statements contained in said Resolution are not according to the facts and the records of the County Officials named.

BE IT RESOLVED that the minutes of the Board of County Commissioners show that a distress warrant against the personal property of the North Star Co-Operative Oil Company was placed in the hands of the Sheriff, Ed. T. Elkins on August 19th, 1935.

That according to the sworn affidavit and return of Sheriff Ed. T. Elkins the personal property of the North Star Co-Operative Oil Company was sold for $710.00 on September 3rd, 1935 and that the money was paid to the County Treasurer on said date, when in fact such money was not paid to the County Treasurer until November, 2nd, 1935.

That said Sheriff wilfully withheld said sum until the second day of November 1935, before turning said money over to the County Treasurer of Codington County;

That W. J. Sibert was appointed and qualified as Tax Collector of Codington County on September 16th, 1935 and a Distress Warrant number 1885 against personal property of the North Star Co-Operative Oil Company was placed in the hands of W. J. Sibert as such tax Collector on said date and that prior to the payment of the tax sale money by the Sheriff to the County Treasurer, W. J. Sibert was authorized by law and by such Distress Warrant to collect such tax and receive commission for

such collection of all monies collected under the distress warrants in his hands as such Collector.

That by reason of the witholding of the tax sale money by Sheriff Elkins from September 3rd, 1935 until November 2nd, 1935, and the appointment of W. J. Sibert as tax collector, there was proper justification for the allowance of a commission to the tax collector on such moneys.

That W. J. Sibert as tax collector was entitled to commissions on all moneys collected on Distress Warrants, after the same had been placed in his hands for collection and that the County Treasurer, Ben H. Higgins, had no authority to collect tax money on Distress Warrants and property, turned said money over to W. J. Sibert, Tax Collector.

That this statement is made to correct any false impressions which may arise from the statement of the so called facts, set forth in Commissioner Paterson's Resolution.

Hospital Bids

The following bids were received for County Doctor and Hospitalization of County Poor for coming year.

Bid No. 1 Dr. H. J. Taylor, Florence, S. Dak.

Florence S. Dak.
February 3, 1936.

Board County Commissioners
Watertown, S. Dak.

Gentlemen:

We have felt that as we are twenty miles from nearest Doctor that any of the County work that we can do in the homes in our village and vacinity, cases which do not require a hospital should be given to the local village physician.

I hereby bid for this work in village of Florence and immediate territoryon a basis of prices as set forth in enclosed schedule from Ransom County, North Dakota where I practiced before locating here last May. All other cases requiring hospital X-ray or major operation and coming to me for care would be directed to the hospital receiving the Hospital contract from the Commissioners. No case however to be treated or sent to the hospital without first contracting the Commissioner of the district where patient is located.

The work outlined in red on enclosed schedule would come within my scope, all the rest would be sent to the hospital.

Yours very truly,

Dr. H. J. Taylor
Florence, S. Dak.

Hospital Bids

P.S. The reason I am offering this is because all county patients do not need to be in the hospital and can be cared for in their homes at less cost, and again it is too far for the Watertown Doctors to go for ordinary cases.

Schedule of fees submitted by Dr. Daylor:

Visits in Town	$2.00
Office Consultations	1.50
Mileage beyond City limits	.50
(No extra charge for visit)	
Confinements in Town	20.00
Confinements in Country	28.00
(No extra charge for mileage)

Hospital Bids.

Bid No. 3 H. J. Bartron.

To the Honorable Board of County Commissioners
Codington County, South Dakota

For the past several years, Codington County has been favored by an exceptionally low contract covering the services required in hospitalizing and doctoring the indigent sick. Comparison with many other counties in South Dakota and other states, discussions at State Commissioners conventions, and the recent proposal of the Luther Hospital and its staff with supplementary remarks of its reppesentatives, seems at last to have established the fact beyond question of doubt.

Admission of the same must necessarily identify your present contract with somewhat of a charitable nature.

Because of these undisputed facts and, in that last year when you were confronted with a proposal that would have cost Codington County three times the amount that you have been paying, I complied with your request to renew the old contract, it seemed this year that my request for a renewal was worthy of your consideration and acceptance.

Hospital Bids.

In that you have not elected to do so and have advertised for competitive bids, I am herewith submitting the enclosed bid.

In comparing the proposal with other competitive bids it is only just that you give consideration to the following:

1. The Luther Hospital, because of its so-called charitable service to the indigent, has thereby established itself as tax exempt and pays no taxes whatsoever, either county, state or federal.
2. The Bartron Hospital has always paid taxes.
3. The organization setup should be such that those authorized to sign the contract obligate and bind the Luther Hospital and its entire staff or any other bidders to complete fulfillment and protect Codington County against any evasion whatsoever.
4. The Bartron Hospital is so organized and provides you full assurance and protection in every detail.

In the event that there are no other legal bids, it is not to be expected that the Bartron Hospital should be intrigued into bidding against itself. In this event an alternate bid to renew the present existing contract is hereby submitted.

H. J. Bartron.

secured and [illegible]

(b) Embalming Body. Embalming of the body, arterially and in its cavities, using a good standard disinfectant embalming fluid, packing all openings with cotton soaked in bichloride solution.

(c) Contagious diseases. Where a person dies of a contagious disease there shall be an additional allowance of Fifteen dollars ($15.00) for the proper care, materials and disinfectant.

(d) barbering, shaving, trimming hair.

(e) Dressing body. Dressing the body in the perscribed undergarments and a black shroud or suit. Incase the deceased has no suitable clothing for burial purposes, there shall be an additional allowance, not to exceed Five dollars and fifty cents, ($5.50) for clothing.

4. CASKET: for adults,

Motion carried.

Watertown, S. Dak. Jan. 19, 1937.

Spanish War Vets Request

To the Honorable Board of
County Commissioners, Codington
County, South Dakota.

Gentlemen:

Some time during the year 1926 it was decided by Codington County that a new Court House be erected. During the campaign covering the issuance of bonds, and the general discussion pertaining thereto one of the arguments and representations made was that this new building would provide a meeting place for a number of organizations existing here, including the American Legion, Civil War Veterans, and Spanish American War Veterans. The plans and specifications prepared by the architects provided for a room on the ground floor for the use of the Civil War Veterans and Spanish American War Veterans which was designated as "Veterans Room," and so marked on the transom. This room was used jointly by the Civil War Veterans and the Spanish American War Veterans until the time the Civil War Veterans disbanded for the reason that there were only three members living in Watertown.

About the time Civil War Veterans disbanded the following proceedings were had by the Honorable Board of County Commissioners of Codington County, as it then existed, as follows:

"Moved by Wohlheter and seconded by Walsh that the supervision and occupation of the Veterans Room be given to the Spanish American War Veterans. Motion carried."
See page 123, Vol. "H" Commissioners Proceedings, dated March 6, 1930.

During the early summer of 1933 shortly after the inauguration of the so-called "New Deal" the Court House was filled from top to bottom by various activities of said "New Deal", and a representative of your body came to the Spanish American War Veterans and said that this room was very badly needed in the emergency that existed at that time, and asked if we would consent that it be used; and further stated that it was only temporary, and that the room would be returned to us, as soon as the emergency passed. We, deeming ourselves loyal patriotic Americans, of course, consented. We now feel that nearly four years having passed that theemergency has passed. We, therefore, most respectfully, but urgently request that the use and occupancy be returned to us.

Very respectfully,

(Signed) A. T. Hopkins
M. C. Bowen
George T. Hipp, Committee

RESOLUTION

WHEREAS, under the provisions of Chapter 241 of the 1937 Session Laws of South Dakota persons having delinquent taxes charged against them or their property may apply to the Board of County Commissioners of Codington County, where such taxes are paya ble to adjust and pay such taxes by making application for a ten year installment contract, upon depositing the entire amount of the 1937 tax and,

WHEREAS, said statute requires the County Commissiohers to find that the statements contained in said application are true and correct and the Attorney General of the State of South Dakota has ruled that the Board of County Commissioners have, under such statute, authority and the right to determine for themselves whether or not the statements contained therein are or are not true as to the statement that the installments provided for will be paid and,

WHEREAS, several thousand such contracts were made under a similar statute passed in 1933 and again in 1935, most of which said contracts are delinquent and should be canceled by the County Treasurer and,

WHEREAS, the operation of said statutes has resulted in very material reduced tax collections and the operation of said statute has reduced the amount of taxes collected to such a point that it was necessary for Dodington County to float a refunding bond issue on registered warrants up to January 1st, 1937 in the amount of $91,000 and,

WHEREAS, making of such contracts particularly as to personal property results in the postponement of the collection of the taxes for so long a period of time that in many cases collection is never made and in those cases where collection is not made

the burden is simply shifted to other tax payers and,

WHEREAS, it appears that it is not to the best interests of Codington County and the tax payers thereof that applications for a ten year installmwnt tax contract on personal property should be granted and that numerous applications for such contracts with reference to personal property are now being submitted and it is adviseable that the Board of County Commissioners determine the matter of policy with reference to the same at this time for the guidance of the County Treasurer and taxpayers interested and,

WHEREAS, it appears that if the finances of Codington County, South Dakota are to be kept in proper condition that more vigorous efforts must be made in the matter of tax collections and that it is desiraable that ~~the Board of County Commissioners determine the matter of policy with reference to the same at this time for the guidance of the County Treasurer and tampayers interested and, that all outstanding contracts under the 1933 and 1935 statutes, where the same are delinquent, be canceled.~~ all outstanding contracts under the 1933 & 1935 statutes, where the same are delinquent, be canceled.

NOW THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Codington County, South Dakota that it shall be the policy of the Board of County Commissioners of said county to uniformly refuse to approve applications for contracting of delinquent personal property taxes under the provisions of Chapter 241 of the Session Laws for the State of South Dakota for 1937. Provided however, that this determination of policy shall not apply to applications to contract taxes and real estate where delinquent personal property taxes are first paid up, there being considerable difference in the matter of ease of collection of taxes where real estate rather than personal property is involved.

BE IT FURTHER RESOLVED that the County Treasurer of Codington County, South Dakota be and he is hereby required to proceed diligently in the matter of cancelation of delinquent tax contracts under the 1933 and 1935 statutes.

The above and foregoing Resolution was moved for adoption by Commissioner Monahan and seconded by Commissioner Paterson and upon roll call all commissioners voted aye and none voted nay, whereupon the chairman declared the said Resolution to be duly passed and adopted.

The hospitals and doctors in this city are giving employment to a large number of people and are patronizing local business concerns to a considerable volume. In addition through them, many people are attracted to Watertown and patronize local concerns.

Do the Commissioners desire to compete thus with private initiative and long-established, well-epuipped institutions in which the ill can be treated with absolute care and safety?

5. Davidson County Experiment:

Some time back the Davidson County commissioners built a hospital at Mitchell in an effort to reduce their expenses, yet the following is what actually happened:

The hospital was built at a cost of many thousands of dollars--much more than they had anticipated. Equipment, hiring of nurses, hiring a doctor and technicians brought up the total to many more thousands of dollars. Yet within a short period of time the hospital had to be closed. It was costing them much more than they had anticipated. The hospital was then converted into an old peoples' home. This sad experience proved to the commissioners that sumbitting a contract to the private doctors of the county and letting the patients go to which ever hospital they desired has proved a means of saving them a considerable amount of money.

The fee schedule in Davidson County is higher than that paid by Codington County last year. Davidson County still possesses the structure and could use it again as a hospital, but from experience they prefer to handle the problem the way Codington County did last year.

6. Beer tax:

When the beer tax was put into effect, it was through legislation fostered by the State Hospital Association that 50% of the revenue derived from this tax was to be given to the counties for hospitalization of county poor. That amount of money can be credited as a further reduction in the cost of Codington County's medical relief. Last year, 1937, that tax accumulated to the sum of $4,324.13.

Conclusion:

Tht marked reduction in fees that the hospitals and doctors are willing to make together with what the commissioners themselves can do will produce a positive and measurable saving over last year's expenditure.

We feel sure that these measures will bring the 1938 expense to Codington County below that expended by Beadle County in 1937, which county has been frequently referred to for comparison by Commissioner Paterson. The existing arrangement whereby the patient can select his own hospital and physician is by far the most desirable from the standpoint of all parties concerned and should not be discarded.

The following was presented by the Doctors to the Board of County Commissioners.

Moved by Stein, Seconded by Paterson, that the following report of Doctors be ordered filed: Motion carried.

Honorable Board of County Commissioners,
Codington County, South Dakota.

Gentlemen:

We regret that it is impossible for us to accept your recent proposal which was drafted and presented to us in writing by your States Attorney, Alan Austin, at a joint meeting with your honorable Board on Tuesday, January 18, 1938. We desire supplement our rejection with the following.

1. Flat sum per year:

Your proposal is asking the doctors and hospitals to underwrite the expense of medical care for a flat sum. Inasmuch as the commissioners desireflat rates, why do they not demand the same terms of the coal, gas, light and grocery concerns to whom they pay retail prices. If the latter concerns refused, would it also mean that the commissioners would set up their own coal, gas, light and grocery concerns in competition to local business men. It is true that the flat guarantee would be very advantageous, as it would permit county commissioners to authorize any and all requests, thus incurring no enemies by refusal, yet at the same time not incurring any additional expense to the taxpayer.

2. Commissioner Paterson's comparison with Beadle County:

Mr. Paterson has referred to Beadle County for comparison and has emphasized that in 1936 Beadle County had a total expense of $17,000.30:. However, an actual audit of 1937 Beadle County records made at our request shows that Beadle County spent $30,222.49 for medical and hospital care to poor,. This audit is $13,222.19 higher than Mr. Paterson's figure for 1936. Beadle County's expense of $30,222.19 in 1937 is $12,222.49 more that the $18,000 flat sum the Codington County Commissionersare offering the doctors and hospitals for the total professional and hospital care of their county poor for 1938.

3. Employment of a County Poor Physician:

At present we have a large number of people dependent on the county. Many of these families in years past were substantial citizens and taxpayers, but now because of adversity are forced to rely upon county aid. Surely because so many are unfortunate they should not be deprived of the physician in whom they have confidence and of the hospital to which they prefer to go. It seems to us that forcing upon them a strange doctor of unknow efficiency is undesireable. And considering the large volume and variety of work authorized by the Commissioners, we know that it would be absolutely impossible for one physician to perform all of the duties required of him.

4. Shall the County Compete with Private Business?

If the county were to construct a hospital, it would be makeshift at best. A suitable hospital must contain x-ray and laboratory equipment as well as facilities to handle surgery and fractures of all kinds. It consists of more than just four walls and some beds. The expense of equipment and the expense of operation are great.

Converting some old building into a hospital would necessitate spending a large amount of money in remodeling and in buying equipment. In addition, an old building contaminated with vermin, cockroaches, bedbugs, contagious and venereal diseases certainly would not be desirable as a hospital.

In this city we have two hospitals which are thoroughly equipped and are both recognized by the American College of Surgeons which means that they have lived up to the most rigid hospital standards as set up by the American College of Surgeons.

see Page 335

The county, with their outfit and by hiring the casting, did build 50½ miles of roads. 40 miles of this was with an increased width right of way. While the department spent a lot of money the past year, there is really more to show for it than in past years. While the county received a lot of good from the W.P.A. organization, they were also the reason for the spending of lots of money that would have not been spent.

Out expenses for snow removal was high, as was the expense for Transports and Gravel trucks. Money spent for the State Highway Department was not looked for, while our payment for equiptment was also high.

Respectfully submitted,

DON SLAWSON
County Highway Superintendent..

County poor orders were written.

On motion Board adjourned to Feb. 7, 1938.

Watertown, South Dakota
Feb. 7, 1938

Board met pursuant to adjournment with Mcnahan, Paterson, Stein, Williamson and Haan present.

Dr. H.J. Bartron and States Attn'y Alan Austin, appeared before the Board regarding Medicine claims of Bartron Clinic.

The following statement was presented to the Board by Dr. Bartron:

Bartron Statement

Honorable Board of County Commissioners,

Gentlemen:

You will recall that upon request I appeared before your Board on the afternoon of Wednesday, February 2, relative to a dispute over the bill for medicine as rendered by the Bartron Clinic, Inc.

Mr. Paterson introduced the discussion, but quickly summoned the States Attorney, Mr. Austin, to carry on the same. Mr. Austin prefaced his remarks by citing irregularities in the bills of four other drug stored and then called my attention to what he considered the irregularity in ours.

I summarized briefly my position relative to ours, and stated that our drug department was in charge of a competant, graduate pharmacist who was privileged to do all the purchasing, compounding, dispensing and charging. That I personally had nothing whatever to do with the detail of this department and that I did not keep the books of the clinic; however, I did offer gladly to reappear the same afternoon with the graduate pharmacist in charge of our drug department or on the following day, subject to call by your chairman. Neither during the remaining afternoon nor the entire next day did I receive any summons. Wondering why, I made inquiry and learned that Mr. Paterson preferred to delay until States Attorney Austin could be present.

This indeed seemed unusual, and I began to wonder again--wonder whether our contract was with the States Attorney or with the County Board-- wonder whether Mr. Austin and Mr. Paterson constituted the entire Board or whether possibly the other four members duly elected played a part as well. Then I recalled that in the beginning, unknown to me, and while away at noon, Mr. Austin, unauthorized by the Board, had requested Mr. Grue of our office staff to come to his office relative to our bill. I recalled that after Mr. Austin's reference to the irregularities of the four other drugnstores that all bills with the lone exception of ours were approved uncorrected, by Mr.Paterson on the following day and vouchers issued. Then I began speculating wh Mr. Austin and Mr. Paterson had taken so much upon themselves anyway-- why they were showing so much discrimination and were so individually intent upon us alone-- why so disregardful of a provision in our contract providing for dealing with such disputes. It seemed strange that Attorney Austin as legal council to the Board had not called their attention to the same and had not urged them to proceed in accordance with its mandate in that he was the author of the contract and the composer of this paragraph.

It seemed strange that it had not occurred to Commissioner Pat erson , in that he was a party to this contract and had recently so carefully reviewed its provisions, especially as to our bill.

"In order that all disputed which may arise between the various parties hereto may be properly handled, and in order that every provision can be made for the efficient and prompt handling of all county poor cases, a committee of three shall be named to pass upon, any disputed questions arising composed of a member of the Board of County Commissioners to be named by the County Commissioners of the party of the first part as to general matters and to be the County Commissioner of the idstrict in which the poor patient resides, if it shall be a matter involving a specific case, a member of the staff of the Bartron Hospital and a member of the staff of the Luther Hospital; said hospital staffs to name their respective members, provided, however that the board of County Commissioners does not by the provision of this paragraph, in any way relinquish any of its powers or duties privided by law."

And now, gentlemen, rather than permit this to be used as a political football chacterized with discrimination and persecution through the irregular and unfair procedure of Commissioner Paterson and Attorney Austin, I will kindly ask that you extend to us as parties to this contract the consideration and privilege to which we are entitled and that a committee as provided for be appointed to act in the regular manner upon this dispute. I can assure that we will abide by its decision, and if we are wrong, correct any error.

H.J. Bartron.

Dr. Bartron then asked that a Committee be appointed as provided for in the Contract to check medicine claims of Bartron Clinic.

Moved by Stein, Seconded by Haan that Chairman appoint a member of this Board to act on said Committee with a member of the Luthern Staff and one from the Bartron Staff. Motion carried.

Chairman Monahan then appointed Commissioner Stein to act on said Committee as the member from the Board of County Commissioners.

On motion Board recessed to 1:30 P. M.

Board reconvened at 1¼30 P. M. with all members present.

Commissioner Stein presented the following: Due to the fact that the County Board has been unable to secure a County Doctor or arrive at any other solution of our present hospitalization and medical care of County Poor other than we have at present, and having received information that the Doctors and Hospitals have a new proposal to make to the County Board, and in view of the fact that our contract for care of County sick expires Feb. 10., I move that a former motion passed by this Board," that we would not enter into a joint agreement or joint bid with the Hospitals and Doctors of this Cpunty" be rescended,above motion was seconded by Haan, and on roll call the following vote was taken. Paterson - No, Stein Aye, Monahan Aye, Williamson No, Haan Aye,- 3 Ayes, 2 No's. Chairman declared motion carried,and former motion rescended.

W. A. Arnes and W. S. Hannon, State Enginers appeared before the Board regarding the over-head crossing at Yahota.

Dr's H. J. Bartron, H.Russell Brown, W.G.Magee, W. J. Hammond, and Geo. O. Fossell appeared beofre the Board regarding Hospitalization, and Doctors for County poor.

Moved by Stein, Seconded by Haan that the County Board enter into the following contract with Doctors and Hospitals for care of County Poor for one year and chairman and Auditor be authorized to sign same. On roll call Paterson voted No, Stein Aye, Williamson, No., Haan Aye, Monahan Aye. 3 Ayes, 2 No's. Chairman declared motion passed.

The following report of Committee appointed to investigate charge of Bartron Hospital on medicine was presented to the Board.

Honorable Board of County Commissioners
Codington County
Watertown, South Dakota

Gentlemen:

Pursuant to the desire of the County Board and to the provisions of the 1937 contract for the care of county poor, a committee composed of R.H. Stein appointed by and representing the County Board, R.M.Kilgard, M.D., appointed to represent the Bartron Clinic, Inc., and H. Russell Brown, M.D., appointed to represent the Luther Hospital Staff, met February 16th, 1938 to investigate a point of controversy between the County Board and the Bartron Clinic, Inc., regarding their bills for special medicine during 1937.

Bartron Investigation

It is the understanding of the committee that the County Board contends that the county has not received from the Bartron Clinic, Inc., the 30% discount on medicine listed by them in their bills as special medicine. It is our understanding further that the Bartron Clinic, Inc., contends that 30% discount had been rendered the county before the amounts for special medicine were listed on their bills.

Your committee investigated the bookkeeping methods used by the Clinic and the pharmacist of the clinic, Dr. R.Rosenberg, in handling their medicine listed as special or ordinary. We find that the charge and discount for special or expensive medicine has been placed entirely in the hands of the pharmacist. Dr. Rosenberg explained to the committee that he routinely discounted 30% all special medicine to county patients before the charge was sent to the business office. According to his statement and our investigation of his method, the bills for special medicine to the county during the past year have been discounted 30% before they were rendered.

Respectfully submitted,
R. H. Stein, County Commissioner
R. M. Kilgaard, M. D.
H. Russell Brown, M.D.

Moved by Haan, seconded by Paterson that Albert Endres be granted a dance license for the season at $25.00. Motion carried.

Moved by and seconded that Chairman be authorized to sign a farm lease to Margaret Kreger on the NW¼ of 23-118-52. Motion carried.

Mr. Stein made the following statement:

So that my position may be clear, I want to file this statement, request and motion in writing.

I want to be fair to all, and I think we ought to be that way, and at the same time protect ourselves and the public, and if one bill is wrong in any way then any other bill that is also wrong should go the same way.

Doctors' motion

In this matter of doctors' bills, the law says that no doctor can practice unless he has a license and has recorded it in the Register of Deeds' office. It is easy to go to the Register of Deeds and find out what doctor has not done this, and if he has not done it, then, as I understand the position of the States Attorney and the law, any service rendered by that doctor can not be legally paid for by Codington County. I don't know whether this is a correct position to take or not; but I do know that it bills from one doctor are held up and he is arrested on some technical charge, then it is only fair that all other bills be held up and the States Attorney be directed to investigate any and all other doctors or clinics which might be putting in the same kind of bills and who are not on file as licensed doctors.

I think if our States Attorney wants to be fair also, and wants to protect this Board and the Auditor against allowing any bills that "could not be legally paid for by Codington County", he should go to the records in the Office of the Register of Deeds and see if these other doctors have done what they have to do and recorded their licenses. For instance, we have bills here of Dr. H.R. Brown, and of the Northwestern Clinic in which there were services claimed to have been given by Dr. M.J. Hammond; and I don't believe that the States Attorney can find a license of either of these doctors recorded in the office of the Register of Deeds, as the law says, before they can practice as doctors. If these are the facts, and we are going to be so particular about every little thing and raise a fuss even if we get good service, then I think all of these bills ought to be held up until an investigation and report is made. And if our County money is going to be used in the trial of persons for some offense, that is only claimed to be technical, and where no harm to anybody has been done, then I think we ought to go the limit and have the States Attorney arrest and try everybody else who may have done something that is against the plain law.

And in this same matter, I think the States Attorney will find from the same record that Dr. O.S.Randall did not record his license until September, 1935, and I think that all the doctors in his Clinic knew that he was practicing here in our County before that time.

To protect myself and this Board and the Auditor, I want this whole thing cleaned up one way or the other, in a fair, square way. If we are going to hold up fair bills on some petty ground, let's follow the law and the States Attorney's opinions in every case and let him do so, too.

I move that all of the doctors bills now before the Board be deferred for further consideration; and that the States Attorney be directed to look into all of these matters at once, and that if he finds that any of these bills are improper because doctors have not recorded their licenses that he so advise us; and he is directed to prosecute any and all doctors who have not complied with the law, if he insists on prosecuting any of them, including any who have known about or "aided and abetted" any such violation of the law; or that he report that this whole matter and trouble is so small and petty that there should be no arrests and trials but that we should all get together and fairly iron out this whole thing.

The above was moved for adoption by Stein, seconded by Skells. Motion carried with Paterson voting no, stating that his reason for voting no was the last paragraph.

We have 314 miles in the county system at the present time and have maintained 283 miles last year. The coming year will have to maintain 298 miles as we have that much built up. That leaves only 14 miles that is in the county system to be built and graveled. This winter we will be graveling on all roads that we rebuilt this summer besides a couple of roads that need regraveling. On work started this year we have left, that part of the road North from Henry from the raceland Church to the Overhead at Wallace except the grade across the slough at what is known as Katjes Slide.

Alan Austin, States Attorney presented the following tentative proposal:

TO THE BOARD OF COUNTY COMMISSIONERS AND THE HOSPITALS, DOCTORS AND DRUGGISTS OF CODINGTON COUNTY:

In connection with the various controversies over the perplexing problem of hospitalization, medical and surgical care and the furnishing of medicines for the county poor relief clients of Codington County, South Dakota, I wish to present the following tentative proposal as a suggestion for the 1939 contract or as the basis for a Resolution of the Board of County Commissioners in lieu of a contract.

The proposition herewith submitted is not an original idea but is one worked out with the experience of the past two years in mind and after consultation with hospital managers, doctors and druggists and has support in practices in other counties and has been legally approved by the Attorney General and I believe under the decisions of our Supreme Court in poor relief matters would stand up as a legal proposition.

I suggest that the County agree to pay to the hospitals, doctors and druggists of Codington County the schedule prices hereinafter set out up to a maximum of $24,000 per year to be available at the rate of $2,000 per month and that it in any one month the charges exceed $2,000 that then and in that event the same shall be prorated 50% or $1,000 per month to the doctors; 35% or $700 per month to hsopitals and 15% or $300 per month to the druggists. In other words, if the total bills of physicians and surgeons exceed $1,000 each physician will receive a proportionate share of the $1,000. That is the commissioners shall allow all of the bills in proportion to the $1,000 available and the same shall be true of hospitalization and the medical bills and that the following fee schedule shall prevail.

MEDICINES No charge for hypodermics and laxatives in hospital all other medicines to be purchased through drug stores and only USP and National Formulary medicines to be prescribed unless there is no USP or NF medicine equivalent to proprietary medicine and no proprietary medicine to be used except on approval as hereinafter provided for. Prices for prescription medicines to be computed in accordance with standard approved pricing schedule established by the South Dakota Pharmaceautical Assoc. in June, 1937 less 10% discount. Special medicines when authorized not to exceed list price or retail selling price, whichever is lower, less 10% and medicines for which payment is to be made to be purchased only through drug stores and none to be purchased from physicians or hospitals. No charge to be made for delivery of medicines to doctors offices, patients or hospitals.

Charge for operating room or anasthetic to be made only on operations falling in classes above $10.00.

There shall be appointed by the County Commissioners a doctor from the Bartron Hospital staff, a doctor from the Luther Hospital staff and a member of the Board of County Commissioners and a druggist to serve as a supervising committee. This committee shall determine whether or not a patient who has been authorized by a county commissioner should be permitted to have his medical and surgical care and medicinals at the county expense; shall determine whether or not the case shall be operated upon and whether or not special or proprietary medicines should be authorized and the ruling of the committee as to whether or not items are proper charges shall be final unless upon appeal to the board of County Commissioners the decision of the committee is overruled. This committee shall act whenever an operation on a patient is proposed; whenever it is claimed that a patient has been hospitalized for a sufficient length of time and whenever special medicines are requested and shall adopt subject to the approval of the Board of County Commissioners schedules for operations and determine such other matters subject always to the approval of the Board of County Commissioners, as shall be proper and equitable for the proper carrying out of the agreement between the county, hospitals and doctors and druggists.

This propostition is not submitted or intended as a final proposition but simply to get the matter open for discussion and to try to eliminate many of the abuses that have crept in in the caring by the county pf poor relief patients.

The county's situation financially is definitely precarious. The first of the year 1937 we floated a bond issue of a net of $81,000 to take up registered warrants. The September 30th quarterly report shows an accumulation of approximately $80,000 in registered warrants up to September 30, 1938, a little over a year and a half so that if the legislature authorizes it the county should float another bond issue to take up registered warrants to January 1, 1939. I am satisfied that the banks will not permit this situation to continue indefinitely and costs of medical care and other costs must be definitely cut.

When a flat proposition was discussed a year ago the doctors objected upon the ground that the county commissioners would authorize cases indiscriminately if they knew there was a limitation on the cost. As a check against this possibility the set up of a committee with authority to disallow cases which should not be receiving county help will I believe solve any such difficulty, assuming that the argument is correct.

Unless we are ready for socialized medicine and obviously Codington County is not financially able to start any socialized medicine program, we must adhere to the old principles and I do not believe that any medical program as between a county in South Dakota and the doctors and hospitals can work out successfully unless the prices received by hospital and doctors for the services rendered to county patients is sufficiently low that the doctors and hospitals themselves will aid the commissioners in weeding out those cas3s which can afford to pay the bill for their care either themselves or can secure assistance from relatives, and that one of the difficulties which we find ourselves in for the last two years has been the fact that the county has been paying a sufficient price that on border-line cases the doctors and hospitals have preferred to take what the county was paying rather than take a chance on the patient himself paying or getting assistance from relatives and that we must get the price down to where the physician and hospital will aid us in controlling this situation.

I briefly call your attention to some of the practices which have grown up wherein although the county should be getting a cheaper rate than private patients we have in fact under the past two years contracts been paying more than private patients.

Under the 1938 contract laboratory fees were authorized. I believe that any private patient even though he call well afford to pay his bill can go to any doctor in this city on an office call have laboratory work done and pay from one to two dollars. In the last months it has become a regular practice on county patients for the doctos and hospitals to submit in connection with an office call from three to five dollars worth of laboratory work and I can point out in the bills several instances of a charge of $3.00 to $5.00 in connection with an office call growing out of the abuse of the laboratory charge.

In many instances the county is being charges for anasthetic and operating room on minor operations such as tonsilectomy when in fact such operations can be performed in the office of the physician using local anasethetic, with the result that

a $6.00 operation carries with it a charge of $5.00 for operating room and $5.00 for anasthetic thereby building the total cost to what patients in mederate circumstnaces can have the work done for if they pay their own bill.

The provisions of last year's contract as to medicines provided for retail prices less 30%. During the course of the year an agreement was entered into which contemplated raising prices of special medicines to a point where after 30% discount had been given the county would still pay full price. When this was objected to and the bills were held up an oral agreement or understanding was entered into whereby the county would approve furnishing of special medicine at not to exceed list price of the manufacturer less 30% provided the profit contained in the list price did not exceed 40% and that the schedule approved by the Federal Government in connection with the CWA medical program of some years ago on prescription medicines would be approved. In some instances I believe medicine supply sources proceeded then to classify cheap special medicines as prescription medicine wherever it was to their advantage to do so thereby increasing the cost of medicine to the county. I believe therefore that the requirement that only USP or NF formulas be prescribed unless there is no USP or NF formula to fit the situation will substantially reduce the cost and give the same result. For example, I am told by druggists that phenobarbital formulas will get approximately the same results as seconol or sodium amatol special medicines. At last year's conference between the doctors, hospitals, druggists and county commissioners it was rather freely conceded by the doctors that they have worked around to the use of special medicine rather than USP and NF prescriptions and often times are now at a loss as to what USP and NF formulas to prescribe. I believe that the doctors can cooperate with the druggists and probably permit the druggists to suggest the USP or NF formula equivalent to a proprietary medicine. That this is true is apparent from the requirement of the goverment under their Farmers Aid Corporation set up where special approval is required for the use of any special medicine. As to insulin and a few of such items there is no USP or NF prescriptions.

In connection with the proposed committee it is my thought that the doctors and hospitals can and will check on each other where if they do not do so they will get only a pro-rated portion of their bills paid. That if desirable the druggists can change about in acting a month at a time in checking medicinal bills and that the same can likewise be true of the medical representative, provided always that the two medical representatives on the committee are members of the staff of different hospitals and that in the interest of fairness and as a protection to their own books they will eliminate charges which are unfair and in excess of the spirit of the agreement if not the letter of the contract.

Another example of exeessive charges arises in connection with the occasional instance of permitting an obstrical case to be in the hospital by reason of unusual circumstances. In those occasional instances the hospitals have been charging $1.75 a day for the care of the baby whereas I believe that a private obstetrical patient can have the baby cared for for a dollar a day as a result the double hospital charge brings the total cost to the county in such cases up to approximately the amount the private patient in moderate circumstances can have obstetrical care in the hospital.

It is sincerely hoped that sich a proposition will provide automatically the checking and control which the county commissioners have not heretofore had by reason of the fact that there has been no one with sufficient knowledge of medical and surgical practices and terms to properly check on the abuses. I have spent more than a year in trying to study the situation and am very frank in admitting that many practices have gone on for months before I have discovered the unfairness thereof to the county. With a definite limitation on the amount the committee will have to stop such practices for their own financial benefit. As the matter now stands when a county commissioner is told by a doctor that certain things are necessary he is unable to dispute the proposition. The committee of men learned in the subject will be able to control those propositions.

It is hoped that the doctors and hospitals will freely enter into a discussion to the end that something may be worked out as above proposed.IfIt cannot be done I advise the County Commissioners to promulgate some such program by Resolution and that as services are rendered that the doctors will be bound as by contract to the terms of the Resolutions.

After considerable discussion Sheldon moved that T. K. Haggar, Dr. H.J.Aldrich and Dr. S. O. Randall be appointed a committee to draw up a proposal to be agreed upon between Doctors, Hospitals, ounty Commissioners for their approval. Seconded by Haan, Motion carried, all voting aye.

The following request was presented to the county Board by Dr. H.J.Bartron regarding unpaid medicine bills and refund to County of $618.81.

Bartron Hospital

Honorable Board County Commissioners, Codington County , S. Dak.:
Gentlemen:

We are kindly requesting that you grant the following consideration to which under all circumstances we seemingly are so justly entitled--namely apply our recent refund of $618.81 upon our unpaid current bills for medicine for the months of October, November, and December, amounting to $961.23.

Permit us to assure you that we are at all times more than willing to correct any items that do not conform to the terms of the 1938 contract. Month after month goes by, all similar bills presented by others are approved and promptly paid, but ours alone are held up with no reason revealed and no opportunity given to correct non-conformities, if any.

The collection from other sources of this refund of $618.81 was not a compulsary measure on our part. We know that you all appreciate the same and fullyrealize that without our voluntary effort and persistence recovery to Codington County of over six hundred dollars would not have resulted.

One good turn deserves another. It seems only fair that the $618.81 refund should be credited upon our unpaid medicine bills amounting to $961.23. This would still leave an unpaid balance of $342.42, which is more than one third of the total bill. Surely this would protect Codington County against discrepencies, if any exist.

Of course we want and need our pay promptly for services rendered as you and everyone else want and need theirs, expecially under present conditions. We need it to help pay our very large proportion of taxes through which Codington County is financed and its public officials paid. We need it to pay salaries of our many employees and to compensate the many mercnants inyour city and county that we patronize. We need it to properly care for your county sick and to treat them as human souls without discrimination, notwithstanding they are unfortunate and forced to accept your aid.

We have always believed in our city, county, and the state of S. Dak. and have evidenced the same by spending our money at home, by investing large amounts of capital in our midst and even recently building extensively in adverse times.

We have always tried to do our part and have conducted a large going and successful organization for the past thirty years, attracting many people from a large radius to our trade territory. Admittedly all these are assets worthy of reward and consideration as well as loyal support and protection and are what Watertown or any other successful city or county needs.

Trusting that you will concede the fairness of this request and that we may receive the favorable action ofyour honorable board.

Very sincerely
BARTRON HOSPITAL STAFF

To the Board of County Commissioners
Codington County
Watertown, S.Dak.

Gentlemen:

This letter is written on behalf of the Bartron Hospital Association and the members of the Bartron Clinic staff.

Your attention is respectfully directed to the fact that the present contracts for the hospitalization and medical care and treatment of the Codington County needy will expire according to its terms on February 7, 1939, and that no arrangements have been made for the care of such needy following that date.

the matter is, however, that the very doctor who is now making the severest criticism is the one who was largely instrumental in securing the terms, rates and provisions of the contracts that have been in force the last two years, and the further fact is that there was no substantial increase in this medical expense until these later contracts were executed. The terms and provisions of these contracts were not originally submitted by the Bartron Clinic but came from the other members of the medical profession at Watertown. There is the further fact that during the twenty year period referred to, the plant of the Bartron Hospital paid a tax averaging about $800 annually. This amounts to 10% of the $8,000 per year average of total medical expense. It appears that the Bartron Hospital and Clinic has returned to the County about 10% of the total paid by the county. February 5, 1939

To the Board of County Commissioners
Codington County
Watertown, S.Dak.

Gentlemen:

This letter is written on behalf of the Bartron Hospital Association and the members of the Bartron Clinic staff.

Your attention is respectfully directed to the fact that the present contracts for the hospitalization and medical care and treatment of the Codington County needy will expire according to its terms on February 7, 1939, and that no arrangements have been made for the care of such needy following that date.

This general subject has been a matter of considerable discussion and following such discussion, a committee has been appointed with instructions to try to work out a satisfactory solution. We are advised that this committee has made some suggestions and recommendations to the Board, but the details of the proposed suggestions have not been submitted to the members of the medical profession or the hospitals of Watertown. We have some general information to the effect that the Board expects to conclude some arrangements on February 7th.

Your attention, however, is directed to the fact that this matter not only affects the welfare of the needy in Codington County, but of necessity this matter involves a considerable amount of money, as well as the service, staffing and equipment of two hospitals, and the members of the medical profession of Watertown. These are matters that cannot be disposed of without serious consideration, and in view of the nature of the services to be rendered as well as a schedule of fees and rates, the whole matter is entitled to and should receive the careful consideration of both the Board of County Commissioners and the members of the medical profession and the hospitals in this city In fairness to everyone concerned, including the taxpayers of this county, we do not see how this matter can be fairly disposed of at the February 7th meeting.

We are mindful of the fact that the medical expenses of Codington County have shown a substantial increase during the past two years. We also have in mind the rancorous criticism that has been leveled at the medical profession and particularly those connected with the Bartron Clinic.

May I call your attention to the following facts:

For a period of twenty years, the Bartron Hospital and Bartron Clinic furnished medical services foe the county needy at a substantially lower total cost than has obtained during the past two years, and during that prior period, every person in need of hospitilization or medical assistance received it without question or controversy. During the period from 1914 to 1933, the total cost averaged about $8,000.00 a year.

Two years ago a demand was made that the persons seeking such medical and hospital assistance should be permitted to select their own doctor and their own hospital. We made no objection to this arrangement. The fact of the matter is, however, that the very doctor who is now making the severest criticism is the one who was largely instrumental in securing the terms, rates and provisions of the contracts that have been in force the last two years, and the further fact is that there was no substantial increase in this medical expense until these later contracts were executed. The terms and provisions of these contracts were not originally submitted by the Bartron Clinic but came from the other members of the medical profession at Watertown. There is the further fact that during the twenty year period referred to, the plant of the Bartron Hospital paid a tax averaging about $800 annually. This amounts to 10% of the $8,000 per year average of total medical expense. That means that the Bartron Hospital and Clinic has returned to the County General Fund about 10% of the total paid by the county. This is an item

that is not paid by the Luther Hospital, which is tax free, nor by the other doctors, since tax on clinic equipment is not included. In other works, the Bartron Hospital and Clinic has been giving a 10% discount on all county business.

In addition, I have been a substantial tax payer on other property and I believe a loyal citizen of Watertown for many years and my interest in the aggregate amount of this expense is of as much concern to me as a tax payer as it is to other tax payers. I realize that this medical service and attention should be furnished at a lower aggregate cost. I am satisfied that it can be furnished at a substantially lower aggregate cost based on past experience when the contracts were let on a competive basis. While there has been some increase in the number of patients and in commodity prices, justifying some increased expense, nevertheless, the total amount paid for the last two years is larger than it should be.

Criticism has been directed at the Bartron Clinic for the total amoun paid from month to month. Your attention is directed to the fact that no persons receive any medical treatment or hospitalization except upon the written order of at least one member of the Board of County Commissioners and every item has been fully authorized before the service was rendered.

The aggregate amount received by the Bartron Hospital and Clinic is accounted for by the fact that more than eighty five per cent of the needy in t e county have of their own choice selected the Bartron Hospital and Clinic. If these people are to have the free choice in the future, the proportion of patients treated at the Bartron Hospital and Clinic will be probably the same.

In dealing with this problem, I feel that we should not lose sight of the fact that we cannot traffic with the needy of the county and cannot deal with them except upon the basis that they are human souls like the rest of us and that their needs and demands while ill are exactly the same as those who are more fortunately situated.

In t is connection, I call attention to certain information that has come to us to the effect that proposals are being considered under which the needy ill would be placed upon a waiting list; that the total number of beds to be available would be limited; that the total number of professional calls would be limited and that the amount of medicine to be furnished is to be limited.

While the foregoing all may be desirable from a financial standpoint and have some merit for serious consideration, neverthless, I respectfully call your attention to the fact that the arbitrary limitation of medical items to be given to a sick person is a shock to the medical conscience. A poor person who is sick is just as sick as one who has financial means. His needs and demands for immediate medical attention are the same as those who have plenty of money and we cannot tell the sick people to stand in line and hold their illness in abeyance until there is room for them, based upon an arbitrary limit or standard fixed by contract or resolution. Sick people need treatment when they are sick and they cannot safely wait

Every doctor and every hospital contributes his and its share of charitable service and treatment from year to year, but I submit to you the question whether it can be considered fairm to transfer the great bulk of this charity load onto the shoulders of a small group of people, namely the hospitals and the medical profession. Our information further is to the effect that under the proposals now being considered by the Board, there is again a substantial increase of fees and charges and higher than it has been the past two years. Lower total medical and hospital cost is the end we all desire, and such increases are not justified.

As stated above, for many years in the past, it has been possible to treat all cases with fairness under fee schedule that permitted the payment for every case so treated and yet where the total or aggregate amount paid by the county each year was substantially less than it is now. I respectfully submit to you that it is still possible to work out a basis for performing such services at a substantially lower aggregate cost and upon a basis where no one ill would be compelled to stand in line and wait; no one would be requested to postpone illness until his quoto is reached; no one would be denied any medical attention or hospitalization. But we cannot do this on any arbitrary basis. It will be necessary for the Board and the medical profession to sit down and work out an arrangement in fairness to everybody.

It is with this thought in mind that I am now writing you suggesting that if your board has definite proposals or suggestions for handling this matter for the coming year, it would be only fair that these proposals and suggestions be submitted to the medical profession and the hospitals prior to the meeting on February 7th. It has been our thought that this difficulty can be adjusted on a mutually satisfactory basis and one that is fair not only to the county and the tax payers, but also fair to the hospitals, the medical profession, and the county needy.

It has been my thought that we should first try to work this out on a mutually satisfactory basis; that if we cannot do so in that manner, than I submit to you that we desire the opportunity to bid on this on a competitive basis. I know than an open competitive bid would mean a distinct saving to the tax payers and at the same time would produce services and facilities to adequately take care of all the needy in the county.

We desire to cooperate with the county so far as it may be fair and possible---to that end we respectfully request that your suggestions and proposals be submitted for consideration and discussion. We have some definite plans and suggestions that will eliminate both excessive expense and future controversy, but we desire tonknow the wishes of the Board so as to incorporate them into such proposals so far as possible.

May I request that this receive your further consideration.

Yours respectfully
H.J.Bartron

WHEREAS, The First Citizens National Bank of Watertown, South Dakota, one of the banks acting as depository of Codington County funds has on deposit with the Federal Reserve Bank of Minneapolis, Minneapolis, Minnesota as security for Codington County deposits $20,000 of 2 1/8% treausry bonds due June 15, 1939 and,

Moved by Hestad that said bid be accepted, seconded by Ristvedt.

Mr. Hasche appearing for Bartron Hospital & Clinic objected to the consideration of this bid on the ground that Board of County Commissioners was meeting as a committee with the other persons present for the consideration of a proposed contract that they had been advised that this would be a committee meeting and not an official meeting and objected to any action being taken on a final contract.

Mr. Paterson stated that it was an official meeting and that the Board had adjourned at 5 o'clock to meet again at 8 o'clock.

Mr. Peterson then asked Bartron Hospital to submit a bid they desired.

Mr. Hasche asked that the following record be made:

At the afternoon session the Board of County Commissioners advised Bartron Hospital and Staff that the evening meeting would be held as a committee meeting for the purpose of discussing proposed terms, fees and schedules and not for the purpose of filing a final or competetive bid. That no opportunity has been given at this time to submit a competitive bid and that it is the desire of the Bartron Hospital & Staff to submit a competetive bid. We desire a copy of the bid submitted, to give us an opportunity to submit a competitive bid to be considered by this Board of County Commissioners.

Bartron Hospital and Staff were granted ten minutes to prepare and submit a bid.

The following bid was then presented by A.H.Hasche:

The Bartron Hospital Ass'n members of Bartron Clinic Staff and Dr. H.J. Bartron offer to execute a contract with the Board of County Commissioners on the same and similar terms as the bid submitted by the Luther Hospital Ass'n,Druggists and medical staff of Luther Hospital, except that the limit to be paid by the county will be in the sum of $23,000 instead of 24,000 and monthly proportion to be figured on such basis.

Dr. H. J. Bartron registered the following protests:

Dr. Bartron protested to the acceptance of the Luther bid stating he felt it was a prearranged stacked bid.

He was given impression at the afternoon meeting that it was to be an informal meeting for discussion and after they left it was made an adjourned meeting.

He criticized hasty acceptance of bid. It was impossible to realized many features of the Bartron Hospital bid as they were denied opportunity to formulate a bid but if given time would show a greater saving to the County than $4000.

Due to the fact that 85% of the people prefer Bartron Hospital fair consideration was not given them.

He remarked that the limit would not be $24000 as in addition it would be necessary to go to expense on the Poor farm also to employ a Doctor and Nurse.

The limiting of number of patients shows inhuman attitude toward poor and subjects them to treatment that a private patient would not tolerate.

He asked the Board what Bartron Hospital had done to deserve such treatment. They had always been good citizens, heavy tax payers and employ a large number people and patronized a large number of local firms.

Chairman Paterson then asked the Luther Hospital representatives if they desired to make any other bid and they said that they did not.

Chairman stated that they were now voting on two bids submitted Luther Hosp. bid with a limit of $24,000, Bartron Hospital and Clinic bid with a limit of $20,000.

Chairman asked for rollcall and the following vote was taken:

Sheldon----------Bartron Hospital
Paterson----------Luther Hospital
Ristvedt---------- " "
Hestad---------- " "
Haan----------Bartron Hospital - for the reason that we are saving the county $4,000.

Moved by Hestad , seconded by Ristvedt that County Auditor and Chairman be authorized to sign contract submitted . Motion carried.

On motion Board adjourned to Feb. 8, 1939.

WHEREAS the said bank now desires the release of the same and there is otherwise deposited as security for said deposits ample security,

NOW THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Codington County, South Dakota that the Federal Reserve Bank of Menneapolis, Minneapolis, Minnesota is authorized to release and return to the First Citizens National Bank of Watertown, Watertown, South Dakota $20,000 of 2 1/8% Treasury bonds due June 15th, 1939 heretofore deposited with the said Federal Reserve Bank of Minneapolis as security for deposits of Codington County and Paul Krakowski, County Treasurer is hereby authorized to release the said bonds above described.

Feb. 23, 1939

Board met pursuant to adjournment with Sheldon, Paterson, Hestad, Ristvedt, and Haan present.

The following letter was presented to the County Board:

To the Board of County Commissioners, Codington County, South Dakota:

Request and demand is hereby made that upon any further consideration of a bid, proposal or contract for the medical relief and care, and the hospitalization and furnishing of medicines for the sick poor of Codington County, South Dakota, during the year 1939, and until a new contract is executed in 1940, that the undersigned be given a hearing before your Board, with a full and fair opportunity to discuss said matter, and make proposals to the advantage of Codington County in connection therewith.

I have previously made a simmlar request, and now repeat that we desire to offer a bid and proposal, and desire to execute a contract containing advantages, both to the County and the needy sick, in addition to those heretofore considered by the Board. We are satisfied that we can conclude such contract with the County at a figure, which in any event will be substantially less that the sum of $20,000.00 and at the same time avoid the extra expense to the County in providing hospital equipment and rearrangement and maintenance of the County poor farm for hospital purposes and there will be no limit placed upon the medicines, drugs, hospital bids, or sick calls whenever same is necessary for the relief and care medically of the County poor. There will be no $75.00 a month salary for a supervising member of the Committee; that there will be no extra expense to the County in employing one or more graduate nurses and equipping for them suitable quarters at the poor farm all of which joined with the flat price that we are willing to make and substantially back would result in many thousands of dollars savings and far more than $4,000 to the County.

This general arrangement would facilitate the ease of conduction and the detailed responsibility, such as itemized bills, etc., upon your Board. Your Board will know definitely the Amount the County would be required to pay for this service.

The above suggestions, proposal and demand is made upon the understanding that the Contract in all its terms be strictly legal.

We also advise that we will be willing to discuss and bid upon such contract upon a competitive basis.

Yours respectfully,
H. J. Bartron, M. D.

TO THE BOARD OF COUNTY COMMISSIONERS,
CODINGTON COUNTY, SOUTH DAKOTA

Pursuant to thesuggestion made by motion passed by your Honorable Board at its meeting February 23, 1939, relative to bids for the care of the indigent sick, the undersigned herwith submit the following:

FIRST : We hereby offer to enterinto a contract with Codington County in accordance with the form of contract that is hereto annexed, and hereby made a part of this bid. In the event that your Honorable Board should desire any changes in such form of contract which will clarify the same or which your Honorable Board believes will better meet the situation, we will be pleased to discuss such changes with you, and in good faith endeavor to reach with you an agreement as to the wording of such contract, in accordance with the general spirit and purpose thereof. You will observe that this contract is in general conformity with the provisions of the contract which you previously proposed to make, except that it reserves to the Board of County Commissioners the power to make all decisions which are within the functions of such Commissioners, represents a saving to the County of many thousands of dollars in the maximum cost of the county, removes entirely all provisions with regard to a waiting list, and also provides that the contract parties undertake to take care of all such cases instead of only a part thereof.

SECOND: As an alternative to the foregoing, and in case your Honorable Board should deem it preferable, the undersigned agree to provide hospitalization and medical service for the indigent poor as directed by your Honorable Board, the wishes of the patient as to hospital and physician desired to have due weight, and to be followed unless otherwise directed by your Honorable Board, at the same identical schedule of rates as is set forth in said proposed contract.

THIRD: As far as the undersigned are informed, propositions along the general line of the foregoing are all that have been considered by your Honorable Board and we have been informed that propositions along any other would not be considered. If, however a proposition along some other line or on some other basis is to be considered, then as a matter of fairness we desire a reasonable opportunity to submit a proposition along such line, and we feel that regardless of the basis on which a proposition may be made, we can more than meet it.

Respectfully submitted,

Bartron Hospital Association

As the above tablesshow what money spent and for what from each fund and also what was bought from all funds, that concludes this, the main portion of this report.

Of grading started last year, we have about 3 miles left on the road in Richland township to finish. This 3 miles though is partly done. The only road on the County Highway System that has not had any work since its been in the system, is the 6 miles known as the Ritz Road. Of course there are other roads in the system that is in need of some work. All of the work done on the roads in the past year has been done to use the W.P.A. labor that is available.

There will be around 300 miles of County Roads that will have to be maintained during the coming year.

Respectfully submitted,

DON SLAWSON
County Highway Superintendent.

The following tables will give the cost of work on what bridges, box culverts, roads built, roads surfaced and on all other work done including work for other branches of the county and State Highway Department.
