Whereas, the law as it now stands makes it impossible for the Boards of County Commissioners to authorize the expenditure of money for the payment of premiums for liability insurance coverage for County Highway employees, and

Whereas the increasing number of traffic accidents has made everyone aware of the financial loss which can be sustained by County Highway employees as a result of accidents which are not their fault and it is obvious that men of property could not afford to assume the risks which result from the present situation and that in addition thereto it is an injustice to expect highway employees to assume this liability.

Be it Resolved by the Board of County Commissioners of Codington County, South Dakota that the State Legislature be requested to pass legislation which will correct this injustice and make it lawful for counties to expend funds to pay premiums for liability insurance for its highway employees, be it further resolved that a copy of this resolution be sent to each of the following:

The Representative from this District
The Senator from this District.

R E S O L U T I O N D68-37

WHEREAS, the existing laws of the State of South Dakota require the individual counties to pay use tax on gasoline in the same manner as individual persons for the use of public highways and whereas, in fact such gasoline used by the counties is devoted to the actual building and maintenance of the highway systems, including State and County Highways, in the respective counties, and including the use of such gasoline in maintainers, caterpillars and other grading and construction equipment, and in effect the law which was intended to provide money for road funds requires a large portion of such funds to be repaid to the State and unduly penalizes the respective counties in their road building programs and whereas it is not believed that the Legislature or the public intended such an effect, and it is believed that the present system should be revised, modified or changed as may be necessary to relieve the counties of such a tax burden.

BE IT RESOLVED: That the County Commissioners of Codington County, South Dakota do hereby petition and recommend to the Governor of South Dakota, the Legislature and the members thereof, to rectify the existing situation by adequate legislation.

BE IT FURTHER RESOLVED: That copies of this Resolution be communicated to the Governor, the members of the Legislature in and for Codington County, South Dakota, and the candidates therefore, to the various counties and Boards of County Commissioners throughout South Dakota, and the County Commissioners Association.

THE FOREGOING RESOLUTION was moved for adoption by Sheldon seconded by Jordeth with all members voting yea.

Also, if and when the afore mentioned townships build the necessary grade to a proper height running west of the Sioux River bridge to the concrete bridge, the Counties will jointly provide water way equal to or greater than the concrete box bridge, which will be destroyed.

The Board of County Commissioners adjourned and reconvened as a Board of Equalization.

This being the time set for the hearing on the 1951 personal property assessment of Earl Roe in Fuller Twp. as noted in Equalization Proceedings of July 13, 1951, the Fuller Twp. Assessor together with members of the Twp. Board and Earl Roe appeared before the County Board of Equalization. In the discussion that followed, it was generally agreed that due to an oversight of the Fuller Twp. assessor, certain cattle, namely, 20 heifers, 8 cows, and 1 bull had been omitted in the assessment.

A motion was made by Jordeth and seconded by Keenan that the County Auditor be instructed toadd omitted property to the 1951 assessment list of Earl Roe as follows: Under Item #5, 8 cows @ $85.00; under Item #6, 20 cattle between the ages of 6 months and 1½ yrs., @$45.00; under Item #9, 1 Reg. Bull @ $150.00. Upon roll call, all Board members voted yea, whereupon the Chairman declared the motion carried.

On further checking of the appeal of Lila D. Eastwood as recored in Equalization Proceedings of July 5, 1951, it was noted that the structure on which she had requested a reduction from $300.00 to $150.00, which same request had been granted by the Board, same structure had been originally assessed at only $50.00; wherefore the Board agreed to let original assessment stand.

Evaluation of assessment rolls as delivered to the County Auditor being completed, a motion was made by Belk, seconded by Jordeth, that the following changes be made, with all members voting yea upon roll call.
