Mr. Sonnenberg, City Engineer, came before the Board and requested the relocation of a cable. His request was in writing and Commissioner Belk requested the letter be printed in full in the minutes as follows, quote:

Honorable County Commissioners
Codington County
Watertown, South Dakota

Gentlemen:

The Municipal Utilities Department of the City of Watertown have a feeder cable located in front of the Court House on First Ave. S. E. that has to be replaced. The location of this cable is in the boulevard between the trees and sidewalk.

This boulevard is very congested and it is very nearly impossible to place the new cable in the boulevard and still maintain the electrical service during the installation.

We request permission to locate our new cable along the South edge of the sidewalk which would be on County property.

All sod will be replaced where practical and new grass sown where sod can not be replaced. All walks that are damaged will be repaired.

If at any time the location of this cable interferes with construction being performed by the County, the Municipal Utilities Department of the City of Watertown will remove or relocate this cable at the expense of the City of Watertown.

Thank you for your cooperation in this matter.

Very truly yours,

C. H. Sonnenberg
Superintendent

The Director of Equalization requested an abatement of taxes on Lot C of Mahanke-Schwandt Subd., formerly a part of Lot A in Lake Township, to Genevieve Duffner of North Sunset Beach, due to a double assessment of a structure which is on an adjoining lot, which is described as part of Gov't. Asks abatement of one-half of the assessment and the tax, which was 14.51, or 7.26 for half of the tax. Moved by Frantz and seconded by Haan. Motion carried.

The Director of Equalization recommends an abatement of 8.34 of Personal Property tax for John H. Moved by Frantz and seconded by Haan. Motion carried.

The resignation of Glenn Mitchell as Director of Equalization was read as follows:

February 20, 1959

Honorable Board of County Commissioners
Codington County, South Dakota

In a short discussion with you last Tuesday, February 17, I informed you that I was being considered for appointment as City Assessor of Watertown. I also expressed my concern over the help situtation should I have five or more townships to do this year. This will not be known for two weeks or more, however, I felt some agreement could be reached in regard to additional help depending on the number of townships that may decide to let the Director do the job.

We have the small towns in County Personal listings almost totally completed and one copy of Personal is about completed in books, another copy is to be made up for each of the towns with recap in each.

While an appraisal has been made of Real Estate in each town a further check must be made to get those buildings under construction at the time, and of those who have added to their homes such as bath rooms, garages, etc. I have hopes of getting most of this work done by March 1st.

At an adjourned meeting of the City Council last evening, February 19, I was appointed City Assessor, effective March 1st. Therefore, upon my approval as City Assessor I wish to tender my resignation as County Director of Equalization effective March 1st.

It is with regret that I have such a short time to inform you of my resignation. I want to express my appreciation to the Board for the wonderful cooperation given me in working with you the past three and one-half years. It is my hope you can find someone soon to take over.

Sincerely,

Glenn M. Mitchell
Director of Equalization

Moved by Frantz and seconded by Haan to accept the resignation of Glenn Mitchell. Motion carried.

RESOLUTION # 417

WHEREAS, for several years County road equipment has been available to Cities and Towns, on a rental basis, for snow removal and blading of streets.

AND WHEREAS, it has become apparent with the school reorganization movement and increased use of school buses on County and Township roads that a need may exist; Therefore, we will now make County road equipment available to Cities, Towns and Townships, on a rental basis, for snow removal and or blading of roads and streets.

WHEREAS, some township roads are not in suitable condition for use of County road equipment for snow removal due to too narrow top width, or rocks, ruts, or frozen windrows. It will therefore, be necessary that the respective City, Town or Township board meet with the County Highway Superintendent and go over such streets or roads to determine which are suitable for snow removal work with County equipment. A map of such roads or streets as are approved by the County Highway Superintendent is to be made for use of County and the City, Town or Township board involved.

WHEREAS, before any work will be allowed on any City, Town or Township streets or roads a written request and agreement signed by the board involved and approved by the County Board of Commissioners is to be on file in the office of the County Highway Superintendent and it shall further be understood that all County roads must be opened before County equipment will be allowed on any of above streets or roads.

WHEREAS, only such work as is approved by the County Highway Superintendent is to be done then all communications relative to such work must be directed to the County Highway Office.

WHEREAS, the County Highway equipment represents a large investment by the tax payers, the County Highway Superintendent is hereby ordered to set up a rental scale for all such equipment including operators and such rates are to be posted in the County Highway office and copies of same sent to each City, Town and Township board in Codington County. Minimum of one hour shall be charged for each time any piece of equipment is used on above work.

RESOLUTION #447

WHEREAS, for several years County road equipment has been available to Cites and Towns, on a rental basis, for snow removal and blading of streets,

AND WHEREAS, it has become apparent with the school reorganization movement and increased use of school buses on County and Township roads that a need may exist, therefore we will now make County road equipment available to Cities, Towns and Townships, on a rental basis, for snow removal and or blading of roads and streets,

WHEREAS, some township roads are not in suitable condition for use of County road equipment for snow removal due to too narrow top width, or rocks, ruts, or frozen windrows. It will therefore be neeessary that the respective City, Town or Township board meet with the County Highway Superintendent and go over such streets or roads to determine which are suitable for snow removal work with County equipment. This must be done prior to November 24th, 1960. A map of such roads or streets as are approved by the County Highway Superintendent is to be made for use of County and the City, Town or Township board involved,

WHEREAS, before any work will be allowed on any City, Town or Township streets or roads, a written request and agreement signed by the Board involved and approved by the County Board of Commissioners is to be on file in the office of the County Highway Superintendent, and it shall further be undetstood that all County roads must be opened before equipment will be allowed on any of above streets or roads,

WHEREAS, only such work as is approved by the County Highway Superintendent is to be done then all communications relative to such work must be directed to the County Highway office,

WHEREAS, the County Highway equipment represents a large investment by the tax payers, the County Highway Superintendent is hereby ordered to set up a rental scale for all such equipment including operators, and such rates are to be posted in the County Highway office and copies of same sent to each City, Town and Township board in Codington County. Minimum of one hour shall be charged for each time any piece of equipment is used on above work,

NOW, THEREFORE, be it resolved that we the Board of County Commissioners of Codington County hereby in regular session do move and approve this Resolution and same to be in effect upon approval, for the winter of 1960-1961 only.

Alice V. Olson
Auditor - Codington County, S.D.

February 19, 1963

The Board of Commissioners convened at 10:00 A.M. with all members present - Chairman Frantz presiding.

The Minutes of February 5th and 15th were read and approved as read on a motion by Haan, seconded by Murphy. Motion carried.

The County Auditor and the County Treasurer presented an application for an abatement of 2 mills on the 1962 tax listed to the Taxpayers of the Town of North Shore, Lake Township, which amounts to $1064.63. The Lake Township property was assessed as of May 1, 1962. The town of North Shore was not incorporated until July 31, 1962. The Board of Supervisors of Lake Township requested that the County Auditor levy two mills on the total Lake Township valuation to be used for general purposes. The levy was computed and the tax list completed and certified to the Treasurer as such.

The town of North Shore represented by Ross Oviatt, Attorney, suggested that this two mill levy be paid to the Town of North Shore.

Whereas, the Deputy States Attorney, Francis C. Burns, advises "that the two mill levy should not have been extended against the Town of North Shore property for the reason the North Shore was a municipal corporation at the time of the levy, and that the County Auditor and the County Treasurer should now correct their records by deleting the two mill levy against the North Shore property".

Moved by Hogstad, seconded by Reaney, and upon roll call, all Commissioners voted "aye" - motion carried.

Report of C. S. Rasmusson, County Highway Supt., to County Commissioners:- On a meeting called by State Highway Officials to discuss uniform Traffic Control Devices for Streets and Highways, which standards have been adopted by all States of the United States - "I attended this meeting together with Mr. Strain from the Watertown Traffic Dept. We were informed that due to the terrible loss of life and property due to traffic accidents all over the Nation (the economic loss to South Dakota last year was over $40,000,000), that a National effort is being made to reduce such losses by improved designs on our Highways and placement of uniform control devices. The Counties and Cities were requested to officially adopt the standards for Uniform Traffic Control Devices for Streets and Highways, which were prepared by the National Joint Committee on Traffic Control Devices, and which Committee was formed by, and standards adopted by, the following:- American Association of State Highway Officials, Institute of Traffic Engineers, National Committee on uniform Traffic Laws and Ordinances, National Association of County Officials, and American Municipal Association. We were also advised that the target date for completion of the program as far as signs and markings were concerned, is the end of the year 1966. In the meantime, it will be necessary on all Federal Aid projects that the signs, markings, sight distances on vertical curves, shoulder and bridge widths, all conform to the new standards."

The Board of County Commissioners convened at 10:00 A.M. pursuant to adjournment with all members present - Chairman Frantz presiding.

This being the time and place for the opening of bids for one Highway paint striper machine, the following bids were received:- Pecaut Equipment Co. $4,255.50. The bid of Stan Houston Equipment Co.Inc., did not meet specifications. The Board deferred action on bids for further consideration.

It was made known by Chris Berg that Lake Township did not want to continue operating and maintaining the Dump and requested that it be closed.

The Board of County Commissioners informed the Lake Township Board that the County has no authority under the law to operate a Dump, therefore if Lake Township closed the dump, a hardship would be placed on residents in Lake Township. The Board of County Commissioners convened at 10:00 A.M. with all members present - Chairman Frantz presiding.

According to the records on file in the Register of Deeds office, there is $67.50 due on the lien of James and Marcella Tracy. Dean Sumner, who is the attorney for the client, has paid $67.50 to the County Treasurer to clear this lien off the records.

The affidavit of the Registrar of the Yankton State Hospital states that the account of Marcella Marie Tracy was paid in full January 3rd, 1951, and that any lien filed against the property of James and Marcella Tracy has been filed in error.

Due to the fact that this lien was paid on January 3rd, 1951, Mr. Sumner requests a refund of $67.50 which was an o ver-payment of said lien. The Board referred this matter to the States Attorney.
