Since this was the status of the property at the time of levy for 1966, the property should be exempt from 1966 taxes, the 1966 levy should not be extended against this property.

The Chairman of the Board was authorized to sign a letter to the Corps of Engineers, Omaha, Nebr., in a joint meeting of the Watertown City Government and the Codington County Commissioners May 27, 1969. The following policy statement was issued:

Codington County and Watertown have no particular expression to make on the lower Sioux improvement proposals. We do wish to draw attention to the real root of the flooding problem, which we believe to be the control of flood waters in the Upper Sioux Basin. Correction of this problem will preclude huge expenditures in the Lower Basin, and minimize the threat of damaging floods all along the river. The real root of the flood problems on the Sioux River are in the Upper basin and we strongly urge exhaustive studies in this area.

January 30, 1970

The Board of County Commissioners convened at 10:00 A. M. with all members present. Chm Hogstad presiding.

The following letters from Judge Norbeck were read by the Board.

January 30, 1970

The Honorable Board of Commissioners
of Codington County,
Watertown,
South Dakota, 57201

Gentlemen:

January 30, 1970

I am not especially anxious to impose my wishes upon the Commissioners against their wishes, in regard to office salaries, but I would like to explain some of the problems involved before taking the matter into Court for consideration.

I believe that the matter of salaries should have been disussed at the time the Budget was approved, rather than waiting until almost time for the first pay check. I am not sure whether I could hold the Board to the Budget, as approved, and I am not especiallymanxious to find out. However, I should point out that the Commissioners in this instance are not acting alone as Commissioners of Codington County and Clark and Hamlin Counties, as well as the City of Watertown, and action taken by the Commissioners of Codington County alone seems rather an arbitrary action on their part.

I feel that Zrs. Kass should be paid the amount that the State Statute allows for a Circuit Court Reporter, and I would let the Courts decide this, if necessary. The fact that she lives in Watertown and might work for less is not a fair approach to take, when any one replacing her would demand and receive the same salary as a Circuit Court Reporter.

In regard to the budget request for Hazel Hegarty, I feel her work and ability would justify the salary buggeted. However, if the Commissioners had called my attention at the time the Budget was approved that Hazel was already drawing an amount equal to or more than others in the same class, I would have waived any increase. I have no objection to her being paid on the basis of $3,600.00,in spite of budget figures, if the Commissioners want to continue on the basis we are not operating. As far as Bee is concerned, I would approve the reduction of her salary to $9,900.00, with the understanding she may bill the County for all transcripts for which the County may legally be charged. In any event, Mrs. Kass and Miss Hegarty should be paid as set up in the Budget for January.

As to the Clerk in the office, I assume the Commissioners of the Three counties and the City of Watertown would have the final decision on this. If the County wishes to take over the functions supplied by Miss Hegarty, I have no objections, exception that there will have to be a clerk available in the Clerk's office to zppear in the District County Court, and some provision will have to be made by way of a biliff or some other person who can answer the telephone and give intelligent answers during the days we are out of town and during the time the Court is in session on Mondays, Wednesdays, and Fridays.

If it is the wish of the Commissioners to follow this procedure, I assume the City would also send over the balance of the books for the Clerk to take care of which would include processing of all Small Claims actions, the collection and receipting for fines assessed inthe District County Court, the receipt and disbursement of bond money, and the coordination of the Clerk's records with the Watertown Police Department in regard to fines where there is a stay of payment. I also assume that the individual card which are Kept in all cases of Municipal Court actions should be taken to the Clerk's office so they are available for Police Department reference and for inquiries that come in every day from credit and insurance agencies and other sources, to see if a person has a record. The Judgment Record Book for the Municipal and State actions will have to be taken care of by the Clerk of Courts. Finally, I imagine it is no more than fair to point out that if this should require an extra Clerk to be hired in the Clerk's office, that Codington County will pay this extra help without contribution from the City or Hamlin and Clark Counties.

Very truly yours,

HON:k

Herbert O. Norbeck

January 30, 1970

The Honorable County Commissioners of
Codington County,
Watertown,
South Dakota, 57201

Gentlemen:

After re-reading my letter to you of January 30th, and after having talked with Judge Manson and City Attorney Dean Sumner, it appears that the Commissioners are entirely correct in indiczting there should not be a clerk hired by the District County Court. I believe that the arrangements we have has given the best service to Hamlin, Clark, and Codington Counties as well as to the City and Police Department, but it does result in Hamlin and Clark Counties and the City contributing to an expense which the laws seems to indicate should be borne entirely by Codington County.

If there is no question as to this interpretation, I would assume the remaining question is to whether the Commissione s wish to have the office of Clerk eliminated in the District County Court within the next few weeks or whether they wish to continue during the balance of this fiscal year before making the change.

In the next budget I will make arequest for only a nominal amount for someone to be in the office during Court sessions and when we are out of town on the days that Clark Stephens may not be available. I will also make a nominal request for a Court Reporter to replace Mrs. Kass during illness and vacation time. I assume I can get a Court Reporter from Sioux Falls at the going rate, should this become necessary, with the likelihood that little, if any, of this will have to be used.

I would appreciate a prompt decision from the Board as to their wishes in the matter, so the records may be transferred as speedily as possible, should that be the wishes of the Board.

Very truly yours,

HERBERT O. NORBECK

January 30, 1970

The meeting was a continuation for further discussion in determining what the County Commissioners deemed a reasonable salary payment for the County Court reporter. It was finally determined a salary of $7,500.00 annually for the court reporter and $3,600.00 annually for the clerk-stenographer.

The Board of County Commissioners convened at 10:00 A. M. with four members present. Bergh absent. Chm Hogstad presiding.

States Attorney John Foley, and members of the County Zoning Board, Matt Suttor, Chairman, and Andrew Foley also present for the special meeting.

This being the time and place for the hearing upon the following appeal "A" varience in the planning commission zoning ordinance to allow the Noeth 800' of Park View Outlot to be used for a Mobile Home Court."

The County Commissioners acting as a board of adjustment upon authority given the County Commissioners as of January 2, 1970 for the Interim Zoning Ordinance in Lake, Elmira, Sheridan and Pelican Townships and part of Richland Township, except the area within the Corporate Limits of the City of Watertown, Codington County, South Dakota.

Legal notice was given to the papers and as of January 2nd, these townships became a part of the Zoning ordinance. Under the Zoning Ordinance, Codington County plan was approved and adopted and part of proposed ordinance and Codintton County Commissioners were appointed as a Board of Adjustment. With this action appearing before the Board at this time and as a Board of Adjustment under said ordinance that under said ordinance the zoning officer who is the Chairman and having rights under said ordinance denied the approval of appeal of Arnold and Arthur Dornbush as presented to the Board of Adjustment at this time and also at a regular meeting of the Planning Board reviewed the action of Zoning Officer and concurred in his rejection. The applicant now appears before the Board of Adjustment (County Commissioners) at this time for a hearing to request varience. Legal notice was published in the two legal newspapers in this county.

Dornbush has submitted tentative plans to the Board of County Commissioners for his applications of a variance of zoning ordinance for the Board to consider on basis of plans submitted.

Objection I: Attorney Ries appeared representing Mr. Ross Mitchell, also in behalf of Attorney Dean Sumner representing Sylvan Mack. Orginally application submitted for building and use permit in R 2 Zone for Mobile Home Court and Store was refused because a Mobile Home Court is not allowed in R 2 area. Therefore, application for variance from R 2 Zone rating now would require a change to Commercial Zone in the Ordinance (Section VI). F Site Plan and Schedule (Statutory proceedure of said ordinance)

All requests for change in the zoning map shall be accompanied by the following:

1. Intention: A complete statement giving reason and intention for the planned future use of the area proposed for amendment.

2. Site Plan: A site plan, drawn to scale, showing existing and proposed structures, used, open space, and facilities for parking and loading, and arrangements for pedestrian and vehicular circulation of the area proposed for amendment and all abutting properties with their use and zoning district defined.

3. A proposed time schedule for beginning and completion of development.

Objection II: No applic;ation for building now present on property.

Letter from Dean Sumner, Attorney at Law introduced at this time.

IN RE: Dornbusch Application

Gentlemen,

This letter is written in my capacity as the attorney representing Sylvan Mack of rural Watertown, South Dakota. I ask that you read this correspondence into the record in connection with the appeal of Mr. Dornbush from the action of the County Planning Commission.

Sylvan and Corene Mack are the owners of the property described as: Lot number 1 in Block numbered 1, of "Park View Outlot" subdivision in Government Lot 4, of the Northeast Quarter of Section 23, in Township 117 North, of Range 54 West of the Fifth P. M. The Mack residence is a lake home that has been constructed for possible year around yse. As a matter of fact, during the past year, the residence has been occupied on a full time basis.

We are advised that Mr. Dornbusch has made an application for construction of a trailer court in the area that is immediately adjacent to the Mack residence. In addition, from our own observation we know that a pole building has been constructed on the premises immediately adjacent to the residence of Ross Mitchell. From my investigation, I find that no permit for the construction of this building has been issued by the Planning Commission of Codington County.

August 14, 1970 continued

My clients are opposed to the construction of a trailer court for the following reasons: To begin with, the present construction as we understand it and as we observe the same since we have seen septic tanks on the grounds, obviously contemplates individual and separate sewer systems for each trailer. We have no knowledge as to what type of arrangement has been planned for water supply for each of the trailers but, whether or not a central water distribution system is planned, we feel that the introduction of so many separate septic systems would probably cause difficulty to all well users in the immediate area. In addition, we feel that so many closed in septic septic systems in the area would obviously cause an obnoxious odor with overflow, probably constant need for pumping of one or the other and other sewage problems that normally occur with such systems.

Also, we respectufully point out to the Board that the introduction of a trailer court or other similar facility in this area would certainly act to depreciate property values in what has been a fairly exclusive residential area. The County Planning Commission when it established the zoning ordinance in this area, contemplated the continuation of residences of more or less permanent construction and placed on reasonable sized lots. To grant a variance from this type of zoning would be contrary to the best interests of all of the property owners in this area and work to the financial detriment of all of them. Additionally, I respectfully point out that there are inadequate facilities for recreation for the children that would necessarily be residences of such an area, for the busing of said children to and from school, and for the entertainment of these children. Certainly, trailer court construction this far form Watertown would not be in the best interests of the community and would undoubtedly, in the long run,1result in a blighted area.

In addition to the foregoing, we respectfully point out to the Board that the construction of the pole building in question was, as we understand,it, completed without any authorization from the County Planning Commission or the Board of County Commissioners. I have had an opportunity to visit with the States Attorney of Codington County regarding this matter. In my opinion, such construction w without a permit, constitutes a misdemeanor under the master plan which was drawn and approved by the Board of County Commissioners. We respectfully request that the Board instruct the owner of said property and the party who has constructed said pole building, to either remove the same forthwith or, in lieu thereof, that the Board instruct the States Attorney to commence an immediate prosecution for violation of the law. I realize that this is a matter which is new to the Board of County Commissioners since this zoning regulation in the area in question has only been in effect since approximately the first of the year; however, if any construction in the area is permitted to continue without control and regulation by one party, soon all parties will ignore the ordinance and if this is done, we will have no zoning at all.

In conclusion, then, my clients and I respectfully request that the application for construction of a trailer court be denied; that all construction that was accomplished without a permit shall be ordered forthwith to be removed, that the septic tanks which are now piled on the premises be ordered to be removed, and that any violations of the ordinance should be dealt with at once by the States Attorney and that the Board should instruct Mr. Foley to proceed forthwith. I will be back in Watertown after lunch on Friday and will be happy to personally appear in this matter if a later continuation of the hearing is allowed. I want to express my appreciation and that of my client to the Board of County Commissioners for its consideration in this regard.

Respectfully submitted,

DEAN SUMNER

Mr. James A. Young said he was not approached and was appearing in protestto variance of ordinance and buildings now on premises.

States Attorney John Foley states he would concur with Attorney Ries* opinion of Ordinance to have a variance in reference to an R 2 area - to be changed to commerical 1 area according to good zoning proceedures around the lake.

Frantz expressed in the interest of the Board, "This board does not have authority to grant any variance except with conditions that apply under Section IX - would have to proceed through Section IX - General Provisions and Enforcement.

States Attorney John Foley conveyed to Mr. Dornbush the remedy for proceedures according to the ordinance. That the County Commissioners cannot grant this variance until further steps are taken - application according to Section VI (Set guidelines for good zoning) necessary steps under ordinance to get rezoned to be taken by Mr. Dornbush as to what has to be done in view of facts presented.

Under ordinance, the board is not allowed to grant change in zoning.

The Board denies permission to grant variance of ordinance.

County Commissioners also objected to location as to connection with County Park (Memorial).

It was moved by Murphy, seconded by Mollberg, to approve the proposed occupancy on the right-of-way of Codington County Roads for the Northwestern Bell Telephone Company for buried telephone cable in the bottom of the road ditches. Carried.

Julia Schumacher, County Nurse, appeared in behalf of Nancy Swancutt (Father - Charles E.) in need of treatment for condition of eosinophilia (Blood Condition) at University Hospital. Authorized outpatient treatment for immediate diagnosis and records of further treatment August 18 and 19th.

Board adjourned until August 18, 1970.

County Auditor

Dated at Watertown, S. D. this 3rd day of April 1973

RESOLUTION NO. 925

Resolution Establishing a Grievance Procedure Policy for Codington County

WHEREAS, the 1973 state legislature passed a law that requires the Commissioner of Labor and Management Relations to promulgate a grievance procedure for local units of government in the absence of any existing policy,

THEREFORE, the terms in this resolution shall mean,

Grievance Procedure - the procedure set out by this resolution.

Grievance - an alleged violation, misrepresentation, or inequitable application of an existingagreement, contract, resolution, policy, rule or regulation, of County Commissioners or of any County office.

County Office - any office under the supervision of the County Commissioners of of any elected County officer.

Department Head- the County officer in charge of the employee's office. Where applicable, it also refers to the Board of County Commissioners.

Effective June 30, 1973, all employee's grievances will be handled in the manner set out by this resolution. Failure to follow this grievance procedure will result in the grievance being dismissed with prejudice.

STEP ONE: The employee will discuss the grievance with his department head. If the grievance is of non-recurring nature, this step must be within thirty (30) days of the event leading to the grievance.

STEP TWO: If the grievance cannot be reconciled through step one to the employee's satisfaction within one week from the time the grievance is originally presented to his department head, the employee shall present him with a written ~~presented to his department head, the employee shall present him with a written~~ grievance which shall state specifically the event (s) causing the grievance, all actions taken by the employee to resolve it and the action the employee desired the employer to take.

STEP THREE : The department head shall resolve the grievances by himself if he is able to and if he feels it is justified. If the department head cannot resolve it within one week, he shall present it to the Board of County Commissioners for discussion at their next regularly sheduled meeting.

STEP FOUR: The Commissioners shall render a decision on the grievance at the meeting in which it is presented. The Commissioners may postpone a decision to the next regularly scheduled meeting if additional information or legal advice is needed.

The burden of Proof in this procedure shall be on the employee. The employee will have to furnish the evidence necessary to prove any contested facts.

This procudure is for the benefit of the individual employees only. It may not be used by a non-employee (including former employees who have resigned. retired or been dismissed), nor by employees associations or by labor unions.

an employee sho has been dismissed, shall be entitled to a hearing at the next commissioners' meeting following his dismissal. No written request shall be necessary. Such hearing shall be conducted in private with the dismissed employee and the department head present. The hearing may be adjourned from time to time. If the employee wished to have an attorney present, he must notify the Commissioners who may then reschedule the hearing to a time when the states attorney can be present. to advise the board. Both sides may call sworn witnesses. The employee may provide a court reporter at his own expense. The Commissioners' decision shall be entered into the minutes of the meeting.

The follosing four steps should be carried out by the department head with fairness, firmness and understanding, since these are fundamental to the satisfactory handling of any grievance.

The department head shall;

1. Receive the grievance properly.
   A. Arrange for privancy.
   b. Give a good hearing.
   c. Give your full attentio.
   d. Don't interrupt.
   e. Ask questions to make certain all the facts are given.
   f. Repeat the essentials to the employee in your own words to assure accurate communication.
   g. Assure the employee of prompt action.

2. Get the facts.
   a. check every angle.
   b. Check the union agreement (if applicable).
   c. Check State law and county practices.
   d. Examine the employment record of the employee involved.

3. Take action within one week.
   a. If the employee is right, thke steps to correct the situation and prevent its recurrence.
   B. If the employee is wrong, explain your dicision to him.

4. Follow-up.
   a. Make sure your action is carried out.
   b. Maintain an atmosphere which will promote high morale.
   c. Check through your employees to find out whether there are potential irritations which may become grievances. Take steps toward their removal.

Department heads shall not discourage employees from coming to them with grievances. Neither shall an employer discriminate against or take discriminatory action against an employee who has filed or is in the process of filing a grievance. Although they may be troublesome and time- Consuming, it is better that employees make their grievances known than to keep them within themselves. An unheard grievance can be a serious infection which, before long, may undermine the morale of an entire office.

The above and foregoing resolution was moved for adoption by Commissioner Frantz, Seconded by Commissioner Fortin.

Upon roll call, all commissioners present voted "aye" whereupon the Chairman declared the Resolution duly passes and adopted.
