COUNTY POLICY POSITION STATEMENT
Reauthorization of the Federal-Aid Highway Program

WHEREAS, the Surface Transportation and Uniform Relocation Assistance Act of 1987 will expire on September 30, 1991, and federal support for highway and public transportation programs will terminate unless appropriate action is taken by the 102nd Congress and the Administration; and,

WHEREAS, the Codington County's and the nation's economic future depends on the continuation and expansion of the federal participation in maintaining and preserving the highway system for both rural and urban areas to access the global marketplace; and,

WHEREAS, the Administration's bill radically changes the distribution of funding to the current federal-aid highway system by increasing funding on a smaller portion of that system while reducing the amount spent on the rest; and,

WHEREAS, the Administration's program funding level is not large enough to meet the backlog of transportation needs nor does it effectively reduce the Highway Trust Fund balance, and yet it still calls for a reduced federal matching share that increases the burden of support from the local and state governments.

NOW, THEREFORE, BE IT RESOLVED that Codington County endorses a continuation, with minor modification, of the current, balanced federal-aid highway program, a program which enhances the economic competitiveness of all areas of the nation; and,

BE IT FURTHER RESOLVED that Codington County supports the continuation of a program that focuses on the entire 850,000 mile existing federal-aid system, a truly national system which balances regional and economic access with traffic volume and urban congestion because while it represents only one-fifth of the nation's roads, it carries over four-fifths of the nation's traffic; and,

BE IT FURTHER RESOLVED that Codington County proposes that the federal-aid program should continue the major funding categories in the current program whose time-tested formulas equitably balance funding distributed to the local governments and states and between urban and rural areas and provides adequate levels of transferability to allow counties to meet their transportation needs in the most efficient manner; and,

BE IT FURTHER RESOLVED that Codington County urges South Dakota's Congressional Delegation to support the Balanced Economic Competitiveness Proposal for the reauthorization of the Surface Transportation Assistance Act of 1991 instead of the Administration's Bill.

This resolution was adopted by the Codington County Commissioners on April 23, 1991

In order to pay for the costs incurred, the Commission may impose a uniform monthly 911 emergency surcharge. The initial surcharge rate shall be 75 cents per month for each local exchange access line, and is hereby established effective November 1, 1991. The remittance shall be made to the Codington County Treasurer.

SECTION THREE-SURCHARGE USE AND PROCEDURE

The proceeds of the surcharge shall be utilized to pay the nonrecurring and recurring costs of the 911 related service. This charge may be imposed at any time at the discretion of the Commission. No such charge may be imposed upon more than one hundred local exchange access lines or the equivalent per customer billing.

At least once every calendar year, prior to September first, the Commission shall review the current charge and establish a rate of charge to be effective on the next January first not to exceed the amount authorized.

Immediately upon making such determination and fixing such rate, the Commission shall publish its new rate, and shall notify by registered mail every local exchange access company at least ninety days before such new rate will become effective.

All funds collected from the surcharge shall be credited to a special fund, apart from the general fund of the County, for the payment of nonrecurring and recurring costs and for the general operational expense of the 911 related service, including but not limited to the personnel costs of the dispatchers or the monthly contract costs billed by the public safety answering point. Such funds shall be administered by the Codington County Commission or it's designated committee or counsel.

Any amount collected in excess of expenses within a given year shall be carried forward to the next year.

If the 911 system is discontinued, any money remaining in the fund after all payments to the service supplier pursuant to this section have been made shall be transferred proportionately to the general fund of each participating public agency.

SECTION FOUR-SERVICE AGREEMENTS

The Commission may enter into an agreement directly with the service supplier or may contract or cooperate with any public agency or with other states or their political subdivision for the administration of a 911 system as provided by law.

Adopted this 11th day of June, 1991.

COMMISSIONERS DISAPPROVE OF SALE OF LAND TO GAME, FISH & PARKS: Land owners from Graceland Township appeared before the board in reference to 1036 acres of land being sold to the SD Game, Fish and Parks. They told the board that there was interest from the surrounding land owners to purchase the property but the Game, Fish and Parks was paying more than a local bank had appraised it for. The board was concerned about the price being paid for the land because it is over the assessment and may effect the counties co-efficient mandated by the state. Mack moved and Marquardt seconded to authorize the chairman to sign a letter opposing the sale to the Game Fish and Parks because of the inflated price offered exceeds the assessed value. The impact of the sale could effect the current 30% coefficient of the assessed value of Codington County and the 25% coefficient in the further. All present voted aye. Motion carried.

ABATEMENT AND REFUND APPROVED: Norm Haan appeared before the board representing the Fraternal Order of Eagles requesting a refund and abatement on real property taxes. The were requesting a refund for three (3) month of taxes for 1989, for the full year for 1990 and for 1/2 year for 1991. The second-half for 1991 were to be abated. They have filed a tax exempt status application, but the Director had recommend a do not approve on the application, because the property is purchased on a Contract for Deeds and is not the ownership of the Eagle Lodge until the Contract for Deed is paid up. The board felt that they should be tax exempt the same as other benevolent society lodges. Moved by Mack, seconded by Spevak to approve the application. Total refund of taxes would be 3,916.49 and abatement 1,807.17. Property is located in Pelican Township. Marquardt requested that they delay vote on the motion until they check with the States Attorney on the legality of the application. The States Attorney told the board that the Director was right in his objection, but that he agreed with the board and that it was only an opinion and could be overturned in a court of law. Upon vote of the board all members voted aye on the motion to approve. Motion carried.

MAT CONSTRUCTION PROJECT: Bill Drown, McLaughlin Schultz met with the board in reference to the notice he received that the county was going to cancel two-thirds of the mat construction they bid last November. He told the board that with the cost of mobilizing and setting up and with the county board cutting the project from the 22 miles bid down to 7 miles it would cost him approxmately $18,000. The board told him the project was cut because of county cash flow. Drown said he would be willing to carry warrants until the 15th of Nov @ 9% interest, or he would have to charge the county 86 cents per ton for material that was bid and would not be used. The board took no action at this time and told him they would notify him of their decision.

BOARD ADJOURNS: Moved to adjourn as a Board of Equalization for 1994; motion carried.

ATTEST:

Codington County Auditor

Codington County does not discriminate against the handicapped in the employment of admission or access to it's programs and activities or the provision of services.

May 3, 1994

The Board of Codington County Commissioners convened at 9:00 AM in the Codington County Courthouse. Members present were: Spevak, JOhnson, Marquardt, Brinkman and Mack. Marquardt presiding.

MINUTES APPROVED: Moved by Johnson, second by Mack to approve the minutes of May 3, 1994. All members voted aye; motion carried.

INSURANCE POLICY: Jim Stoudt, representing Fire Underwriter Board reviewed the insurance coverage for Codington County. He told the board that the premium for renewal of a blanket policy covering replacement value had increased $661. He told the board that they had used the same property values that were used last year, but feels that the board should look at the values and increase them. He also said they need a new inventory of the personal property and computer equipment to determine a realistic replacement value.

ZONING CHANGE APPROVED: Moved by Mack, second by Johnson to approve the rezoning of a 60 ft square in the SE1/4 SE1/4 Sec 35-117-51, from Ag to commercial for the purpose of a billboard. The Zoning Board had recommended the change. Upon vote all present voted aye; motion carried.

REQUEST LIENS AND TAXES TO BE FORGIVEN: Mike Cole appeared before the board requesting release of county liens and taxes on a parcel of property located in downtown Watertown. The property located next to Mahowald Hardware is in bad shape and he would like to get the property and renovate it. He would like to purchase the property, but the back taxes in the amount of $3038.00 are more than would be feasible. The board told him they could forgive the county liens, but the only way the taxes can be forgiven would be for the owner to deed the property to the county or the County Treasurer to take tax deed. The treasurer told the board that she could start the procedure. They told him to work with the State Attorney and see what can be done.

RESOLUTION 12-94: CERTIFICATE OF INSURANCE REQUIRED:
WHEREAS Codington County has erected and maintained buildings and grounds to serve the educational, cultural and social needs of its constituents; and,

WHEREAS these buildings and grounds are available for rent by persons and businesses when not used for their public purposes; and,

WHEREAS the use of these facilities for purposes other than their public intent represents an additional liability hazard to Codington County and its insurers;

THEREFORE BE IT RESOLVED that Codington County shall require a certificate of liability insurance naming the person or entity who rents County facilities as insured and the County as an additional insured. The preferred amount of coverage is ($1,000,000.00) one million dollars. The Board of County Commissioners reserves the right to negotiate an alternate amount of insurance for cause; and,

BE IT FURTHER RESOLVED that any party failing to produce the required insurance certificate shall be denied rental access to County facilities.

The above and foregoing resolution was moved for adoption by Commissioner Johnson,

second by Commissioner Mack.

Upon roll call, all Commissioners voted "aye" whereupon the Chairman declared the resolution duly passed and adopted.

Second by Mack. After further discussion Mack suggested nothing be done until the frost is out. It was suggested that they postpone action on the motion until the States Attorney give them an opinion. Moved by JOhnson to table the motion, second by Spevak. All members voted aye; motion carried.

VETERAN SERVICE OFFICER: Derril Chapman told the board that he has been using 8 volunteer drivers to take Veterans to medical centers. He was questioning how the drivers would be covered with liability ins. He also told the board may need to be supplemented before the end of the year. The board said that the liability insurance should be checked into and asked him to do it.

VARIANCE REQUEST:
Bob Beynon, who has shop building north of Watertown, where the new school is going to be built, will have to move his building at that time. He wanted to know if he could buy less than the required 35 acres. The board told him he should check on a different site that has been platted out.

COUNTY ROAD 19: Lyle Tschakert appeared before the board requesting that a larger culvert be put in county road 19 to get some of the water moving. He felt that if more water was moved now it would lessen the risk of spring flood that would include the city of Watertown. Moved by Mack, second by Spevak to go ahead and put two (2) 36' culverts in county road 19 now so you don't have to go back next spring and disturb the road bed. If Still Lake starts to rise too high the culverts should be plugged. Upon vote of the board all members voted aye; motion carried.

COUNTY ROAD 11 DANGEROUS AREA: Nick Endres appeared before the board asking if something could be done on county road 11, where a new residence has been located. There is a knoll that should be cut down to give the vehicles a better view of the approach that was put in.

ELMIRA TOWNSHIP ROAD: The Elmira Township Board filed a statement, with the County Commissioners requesting that the agreement to maintain the township road starting at SE1/4 of Section 34 and proceeding north three miles to the NE1/4 of Section 22 all in T117N, R52W, be amended. They requested that the agreement states that the Township must rebuild only the south two miles of the total three mile road. The board asked the highway supt. to rewrite the agreement and bring it to them for action next week.

EXECUTIVE SESSION: Moved by Spevak, second Johnson to go into executive session at 11:35 AM to meet with county employee. Moved by Brinkman, second by Spevak to return to regular session at 12:17 PM. Upon vote all voted aye; motion carried.

FEDERAL LEGISLATION:

RESOLUTION #26-94
"NO MONEY/NO MANDATES"

Whereas, in South Dakota property taxes are the primary source of funding of local governments; and,

Whereas, mandatory expenditures for new programs initiated at the Federal and State levels of government have contributed to escalating property taxes; and,

Whereas, in South Dakota balanced budgets are required by law; and,

Whereas, services traditionally provided by local governments must be cut in order to accommodate Federal and State mandated expenditures;

Therefore be it solved, that The Board of County Commissioners for Codington County petition the Congress of the United States of America to enact legislation requiring the Congress to provide funding for those programs and

directives it wishes for local governments to accomplish; and,

Be it further resolved, that this Board of County Commissioners communicate to the South Dakota Congressional Delegation its request for Senators and Representative to support this "no money, no mandate" legislation with their votes and their efforts.

Be it also resolved, to ask Representative Timothy Johnson to sign and support Discharge Petition # 25 which purpose is to force a House vote on H.R. 4771, the legislation which requires Congress to fully compensate local governments when it asks them to implement new programs or services at a cost.

The forgoing resolution was moved by Commissioner Mack, seconded by Commissioner Spevak. All voted "aye." None voted "nay."

SPRAYING CATTAILS: The board reviewed an application form for a project to spray cattail to open up a pathway to allow natural flow of water in the corner of Sec. 32-118-52, Sec. 8 & 9-118-53 and Sec.5-118-52R. Moved by Brinkman, second by Johnson to approve the application and have it submitted to the South Dakota Department of Environment & Natural Resources. Upon vote all members voted aye; motion carried.

E-911: Commissioner Marquardt reported to the board that the E-911 System is having problems with Cellular calls and there needs to be legislation to correct the problem. Also small counties are not getting enough income with the surcharge of $.75 cents max and there may be legislation to increase the surcharge from $.75 maximum to $1.25.

COUNTY ROAD #27 PROJECT: Highway Supt. Junge told the board that Vander Wal Construction doing the work on County Rd 27, needs added compensation for his work due to the high moisture dirt which resulted in requiring additional borrow material. He had bid the project for $.64 per cubic yard of dirt, but with the moisture he has to haul additional dirt and at a further distance. He was asking for $1.64 for the additional yards. Junge told the board the additional cost could be between $15,000 and $20,000. The board felt it was to high and he should discuss it with the engineer and Vander Wal and come up with a better price.

OLD HWY 81/COUNTY RD 11: Junge told the board that he had checked out the hill on County Rd 11 on the North end between Sec. 17 & 18 in Elmira Twp, that was reported as a potentially dangerous place. Junge said that a loaded truck had been used to make the check and he could see no need to cut down the knoll that blocks the view, but would recommend signing the area with a sign "hill blocks view".

Moved by Brinkman, second by Spevak to adopt the following Resolution. Upon vote of the board all members voted aye; motion carried.

RESOLUTION #27-94

WHEREAS, the consolidated retirement plan known as the South Dakota Retirement System (SDRS) has served Codington County in a very satisfactory manner; and,

WHEREAS, as legislative study committee is considering a legislative proposal to require that the administrator of SDRS serve at the pleasure of the Executive Board of the Legislature rather than the Board of Trustees of SDRS, and change the procedure for setting SDRS administrator's salary; and,

WHEREAS, the Board of County Commissioners for Codington County has more confidence in the control over SDRS effected by the majority of Trustees who are elected from the employer and employee constituencies served by SDRS than this Board of County Commissioners has in legislators to assume some of these duties.

THEREFORE BE IT RESOLVED, that the Board of County Commissioners for Codington Count oppose the proposal to have the SDRS Administrator serve at the pleasure of the

Executive Board of the legislature and related proposal for setting the salary of the administrator; and,

BE IT FURTHER RESOLVED, that this Board bring this matter to the attention of the S.D. Association of County Commissioners for consideration at its forthcoming convention.

Lavern Marquardt, Chairman
Codington County Commissioners

DRY LAKE FLOODING: Delbert Tschakert, land owner in Fuller Township, Dry Lake, area appeared before the board in reference to a Flood Control Application to DENR. He asked the board if an application for a permit had been sent to the DENR and if not the county must develop a comprehensive plan with long-range planning. He told them that in order to keep in place the drainage and the channels that have been put in, a permit has to be filed with DENR. Chairman Marquardt told him the only responsibility of the county's is to protect the county roads and to protect life. He told him that he should work with township supervisors and the Town of Florence in developing some type of plan and forming a Water Development District.

FLOODING IN PHIPPS TOWNSHIP: Dennis Eck, property owner in Sec 30-118-55, met with the board to see what could be done to get him a road to his property. The road is not a county road, but he has gone to the townships and has achieved no results. The road is not a section line road, so the township board doesn't feel it is their responsibility either.

COMMUNITY ROOM: Steve Starr, Custodial Supervisor presented two proposals to the board to tear-up and replace the floor in the Community Room. Proposals were from SJ Construction and Cashway Lumber. The commissioner told him to also get proposals for carpeting over the floor.

HUMAN RIGHTS COMMISSION BOARD: Betty Gross, presented to the board a start-up budget for a Human Rights Commission Board and Officer. The total budget was $2232.00, but the Minority Resource would raise the funds thru events and contribution, if the county commissioners, would pass an ordinance so a Human Rights Commission Board could be formed. The commissioners would request the States Attorney to draw-up an ordinance to establish the board.

BOARD RECESSED UNTIL 1:30

MITIGATION GRANT/CERTIFYING OFFICER: Moved by Brinkman, second by Johnson to approve and adopt the following Resolution: Upon vote all members voted aye; motion carried.

RESOLUTION #30-94

WHEREAS, Codington County wishes to make application to the Federal Emergency Management Agency for a Hazard Mitigation Grant for it's County Road mitigation Project;

NOW, THEREFORE, BE IT RESOLVED, that Heine Junge, County Highway Superintendent, be authorized to act as Codington County's agent and certifying officer in applying for the Hazard Mitigation Grant, to furnish such information as requested in connection with said application, and to complete all paperwork relating to the grant, if approved.

Adopted and effective this 13th day of September, 1994.

Lavern Marquardt, Chairman
Codington County Commissioners

1995 BUDGET: The board continued to review the 1995 budget, with the loss of the personal property tax revenue they would have to adjust the cash balance applied and the intergovernmental revenue. The loss of the PPRT funds for the remainder of 1994 would be $89,853 and the 1995 estimated amount is $270,000. By reducing the cash balance applied from $687,798 to $600,000 and lowering the intergovernmental revenue from $1,007,000 to $737,000 the projected levy would be 3.69 for the General Fund, .10 for the Snow Removal and .25 for Courthouse bldg. fund, for a total county levy of 4.04 compared to 4.83 for 1994. The final adoption of the 1995 annual budget will be on September 20, 1994.
Joanne Wayrynen, Director of the Womens Resource Center and Jay Johnson, Director of the Boys and Girls Club appeared before the board to see what cuts the board may be considering, due to the loss of personal property replacement tax. The board had not cut any budgets at this time.

TREE DAMAGE: Commissioner Brinkman, serving on the county Weed Board reported to the commissioners that a complaint has been filed with the County Extension Agent and Weed Superior that trees on the McClung property had been damaged due to spraying of weeds. They want to wait until next spring to see if the trees survive.

BOARD ADJOURNS: Moved by Spevak to adjourn until September 20, 1994 at 9:00 AM. Upon vote of the board all voted aye; motion carried.

Patricia Walder
Codington County Auditor

COUNTY HIGHWAY 27 PROJECT: Highway Supt. Hiene Junge, Rod DeJong, of Aason Engineering and John Vanderwall, who has the contract for rebuilding County Road 27, met with the board in regard to the increased expenses for the contracted work. The project was bid at a cost of $277,000 and because of the excessive rainfall and wet conditions added work has cost Vanderwall more money and he is requesting an additional $136,000 to cover his fuel cost and time. Engineer DeJong told the board he thought that $50,000 for excavation work and $25,000 for additional materials would be fair and that he would recommend that amount. The board agreed to consider the change order in the next two weeks.

HWY SUPT. REQUESTS: Supt Junge requested authorization to travel to Region 8 County Rd Advisor Conference in Rapid City, Oct 26 and 27. Board approved. He requested authorization to trade parts from truck 29, which has been declared surplus, for a conveyor. Board approved.

PERMIT TO SPRAY CATTAILS: Civil Defense Director, Bob Taken reviewed a letter from the Department of Environment and Natural Resources granting approval for the aerial application of RODEO for the control of cattails and to enhance the wetland habitat. The proposed application areas includes Section 5-118-52; Section 32-119-52 and Sections 8 and 9-118-53 in Codington County. Taken told the board that the weather conditions have to be right before the spray can be applied. The board told him to have the chemical available and go with the advisement of County Agent, Chuck Langer as to when it should be applied.

The board had no objection to removing the 24" culvert in the existing approach and using it in a new approach as long as excess water is can drain out of the area.

6 to 1 SLOPE ON THE CHANNEL ALONG COUNTY RD 19: Supt. Junge told the board that Richard Boettcher, whose pasture is where a 900 ft. long channel was dug to allow the flow of water from Dry Lake, was requesting that a 6 to 1 slope be made on the cut for cattle protection. Commissioner Marquardt felt it would also enhance the speed of the water flow. The board told Junge to get 2 quotes and to go ahead with the lowest quote.

14th AVE WATER DRAINAGE: The board asked Junge if he had a determination on who is responsible to drain the water north of 14th Ave West. BID OPENING: This being the time set for the opening of bids for a Dump truck and Dump body, the following bids were submitted.

   b. Trade in 1986 GMC 41,081.88, delivery estimated by December 1995

DUMP BODY

1. Drake Equipment, Sioux Falls
   a. Outright cash bid $9,687.00, delivery estimated 60 to 90 days

2. Northern Truck Equipment, Watertown
   a. Outright cash bid $10,769.00, delivery estimated 45 to 60 days

Moved by Mack, second by Brinkman to accept the bids from Pollard International & Great Plains International for the Dump truck and Drake Equipment for the Dump body these being the only bid for the Dump truck and the low bid for the Dump body. Upon vote of the board all present vote aye. Motion carried.

Discussion was held on the possibility of purchasing two more trucks and dump bodies under the February 28th bid price. The Highway Superintendent stated he had plans to trade in two 1985 Ford trucks in 1996. Moved by Brinkman, second by Mack to purchase two dump trucks at the trade in bid price of $41,081.88 each from Pollard International and Great Plains International and two dump bodies at the outright cash bid price of $9,687.00 each from Drake Equipment, waiving late penalties. Payment and delivery to be after January 1, 1996. Upon vote of the board all members present vote aye. Motion carried.

The County has done road work on a township road on the south side of Dry Lake between sections 9 and 16 in Fuller township. The Highway Superintendent will keep the board advised on the situation.

Patricia Walder-Codington County Auditor

Codington County does not discriminate against the handicapped in the employment of admission or access to it's programs and activities or the provision of services.

September 19, 1995

The Board of Codington County Commissioners convened in the Codington County Courthouse at 9:00 AM with Spevak, Marquardt, Johnson, Mack and Brinkman present.

MINUTES APPROVED: Commissioner Mack moved and Commissioner Johnson seconded that the minutes of September 12, 1995 be approved. All members voted aye; motion carried.

HIGHWAY PROJECTS: Supt. Rick Small met with the board and told them he had been contacted by the Game Fish and Parks and they want to see culverts installed in the railroad bed along State Highway 20, instead of a 20 foot cut. Small told the board the cost would be approx. $2,000. Commissioner Marquardt moved that the county install two (2) 36" culvert in the abandoned railroad bed to equalize the water on both sides of the embankment in Section 10 of Fuller Township. Seconded by Brinkman. Moved by Marquardt to table until Tuesday October 3rd, second by Brinkman. All members voted aye; motion carried.

Supt. Small also told the board that he was going to have Brownlee Construction crush gravel before freeze up. The board discussed the purchase of gravel, culverts and bridge supplies from the county highway and used for private use. Commissioner Marquardt moved that if any gravel, culverts or bridge materials are sold to a township they should be used for only township use. Commissioner Spevak second. Upon vote; Marquardt and Spevak voted aye, Brinkman, Johnson and Mack vote nay. Motion failed.

The board noted the signing of an application for Right of Way on county road 3 in Section 2 & 3 Township 116 Range 51W, filed by U.S. West Communications.

Supt. Small told the board that FEMA had rejected the work done on County Highway 19, but he would be submitting an application to the Dept. of Transportation for some Federal funds.

Jim Gulbraa met with the board requesting a culvert be placed in County Road 5 to allow water to flow from Kings Lake to Grass Lake. Allowing the water to drain would not drain his land but would help keep the water from his home. Supt. Small said from a legal stand point he did not see how he could put a culvert in a road where no culvert had been before. Gulbraa said the county had built up the grade on county road 25A in the spring and that was holding the water back. A portion of County road 4 is also under water. Commissioner Brinkman moved to propose to put a 24" culvert in County Road 25A and to set a public hearing on the motion to be scheduled for October 17th, Marquardt second. Brinkman moved to table the motion and action be considered on October 3, second by Mack. All members voted aye; motion carried.

WATERTOWN TITLE & ESCROW: Attorney Jim Roby, representing the Watertown Title & Escrow Company met with the board in reference to the possibility of a new abstract company coming to Watertown. Roby read an unpublished Attorney General Opinion from May 3, of '95 in reference to the cost that should be charged to anyone making copies of the records in the Register of Deeds Office. The attorney for First Dakota Title and Mr. Roby did not agree on the context of the opinion. The board asked Assistant States Attorney Tom Burns to write for a clarification of the opinion.

PLAT APPROVED: Attorney John Foley presented a plat of a free standing partial in the SW 1/4 of Section 15 in Fuller Township for approval.

RESOLUTION 21-95: Commissioner Brinkman moved and Commissioner Marquardt seconded that the following Resolution be approved. All member voted aye; motion carried.
